

Startup Projects for Entrepreneurs: 50 Highly Profitable Small & Medium Industries (2nd Revised Edition)

Author: NPCS Board of Consultants & Engineers

Format: Paperback

ISBN: 9789381039724

Code: NI295

Pages: 424

Price: Rs. 1,700.00 **US\$** 45.95

Publisher: NIIR PROJECT CONSULTANCY SERVICES

Usually ships within **5** days

The first step to initiate planning is to identify a suitable project. To start your own venture you have to decide on many things. Making a choice of the right project is a difficult decision for an entrepreneur and is an imperative decision.

There are no set rules to identify a suitable project, though this is one decision on which the success of your entire venture hinges. So, don't take hasty decisions. Most prospective entrepreneurs tend to display the herd tendency and go for a project, which people have already ventured into. This is not a healthy attitude as success of one in a particular field does not guarantee success of the other. While identifying a suitable project, you should make a SWOT analysis of your own strengths and weaknesses.

Startup India Stand up

Our Prime Minister unveiled a 19-point action plan for start-up enterprises in India. Highlighting the importance of the Standup India Scheme, Hon'ble Prime minister said that the job seeker has to become a job creator. Prime Minister announced that the initiative envisages loans to at least two aspiring entrepreneurs from the Scheduled Castes, Scheduled Tribes, and Women categories. It was also announced that the loan shall be in the ten lakh to one crore rupee range.

A startup India hub will be created as a single point of contact for the entire startup ecosystem to enable knowledge exchange and access to funding. Startup India campaign is based on an action plan aimed at promoting bank financing for start-up ventures to boost entrepreneurship and encourage startups with jobs creation.

Startup India is a flagship initiative of the Government of India, intended to build a strong ecosystem for nurturing innovation and Startups in the country. This will drive sustainable economic growth and generate large scale employment opportunities. The Government, through this initiative aims to empower Startups to grow through innovation and design.

What is Startup India offering to the Entrepreneurs?

Stand up India backed up by Department of Financial Services (DFS) intends to bring up Women and SC/ST entrepreneurs. They have planned to support 2.5 lakh borrowers with Bank loans (with at least 2 borrowers in both the category per branch) which can be returned up to seven years.

PM announced that “There will be no income tax on startups’ profits for three years”

PM plans to reduce the involvement of state government in the startups so that entrepreneurs can enjoy freedom.

No tax would be charged on any startup up to three years from the day of its establishment once it has been approved by Incubator.

The next step, after you have selected your project, is to collect all information about it. The most important information is about the potential market of the items you selected. This book aims at providing a thorough understanding and analysis of the 50 highly profitable industrial projects that you can start. It describes formulae, properties, raw materials used and manufacturing processes of different products. Undoubtedly, this book is a gateway leading you to become your own boss.

The important projects described in the book are Linear Alkyl Benzene, Soy Flour & Milk Processing, Urea Formaldehyde Resin Adhesive, Toothpaste Production, Gypsum Board, Surgical Absorbent Cotton, Starch Derivatives Production, Wet – blue leather, PVC paste Resin, Saccharin, Sodium Chlorite, Phosphate Fertilizer, Tomato Paste, Paint, Autoclaved Aerated Concrete (AAC Blocks), Carbon Black, Caffeine, Sodium hydrosulfite, Magnesium Sulphate (Fertiliser Grade), TMT Bar, Glass Fibre, Plastic (P.V.C.) Laminated Collapsible Tubes, Complex fertilizers, Copper Powder By Electrolysis Process, Atomized Metal powder, Electro Plating, Activated Carbon from Wood, Rubber Powder from Waste Tyres, Precipitated Calcium Carbonate, PVC Flex Banner Production, Reclamation of Used Engine Oil, Edible Corn Oil, Malt Production, Ethyl Oleate, Wheat Flour Mill, Instant Noodles, Zinc, Castor Oil & Pomace, Garlic Oil and Powder, Silica from Rice Husk, Thermocol Cups, Glass and Plates, Match Box (Automatic Plant), Camphor, LDPE/LLDPE Pouch Films, E-waste recycling, Cattle Feed, Saw Pipe, Polyethylene Wax, Disposable Plastic Syringes, Cement.

It will be a standard reference book for professionals and use by everyone who wants to startup as entrepreneur.

Contents

1.HOW TO START AN INDUSTRY SUCCESSFULLY

Choose an Industry or Location Conduct Your Feasibility Studies Sources of Project Ideas

(a)Analysis of Industries' Performance

(b)Analysis of Inputs and Outputs of Industries

(c)Analysis of Imports and Exports

(d)Government's Guideline to Industries, Published Annually is Available

(e)Suggestions of Financial Institutions and Developmental Agencies

(f)Survey of Local Resources

(g) Analysis of Economic and Social Trends
(h) New Technologies
Create Your Business Plan
Finance Your Business
Cash Flow
Collateral
Commitment
Character
Make a Good Impression with Your Lenders
Market Research

2.PROJECT IDENTIFICATION

How This Book Helps You to Identify the Project?

3.LINEAR ALKYL BENZENE

Uses
Properties
Typical Property of Linear Alkyl Benzene
Raw Materials Required
Process Description
Flow Diagram
Environmental Exposure
Occupational Exposure
Machinery Required

4.SOY FLOUR & MILK PROCESSING

Physical Characteristics & Chemical
Composition of the Soybean Chemical Composition Representative Proximate Composition Uses
Raw Material For Soy Flour For Soy Milk Process Description
1.Soy Flour Process Description
2.Soy Milk Process Description
Process Flow Diagram
Soy Flour
Machinery Required for Soy Flour
Soy Milk
Machinery Required for Soy Milk

5.UREA FORMALDEHYDE RESIN ADHESIVE

Uses of Urea Formaldehyde Resin Properties of Urea Formaldehyde Resin Raw Material Process
Description
Process Flow Diagram for Urea Resin
Adhesive Plant Machinery Required Equipment

6.TOOTHPASTE PRODUCTION

Toothpaste Composition and Ingredient
Functionality
Typical Toothpaste Ingredients Process Description
Storing and Filling the Finished Toothpaste Process Flow Diagram
Machinery Required

7.GYPSUM BOARD

Characteristics of Gypsum Board

Uses
Raw Material
Gypsum Board Constituents
Process Description
Transportation
Installation
Flow Diagram
Machinery Required
Gypsum Drying Section
Gypsum Calcining Section
Forming and Drying Section
Utility Section

8.SURGICAL ABSORBENT COTTON

Properties of Absorbent Cotton Raw Material
Process Description Based On Before Carding Method
(1) Opening and Cleaning
(2) Filling
(3) Bleaching
(4) Hydro-extracting
(5) Opening, Drying, Opening and Reserving
(6) Carding
(7) Winding, Cutting and Packing
Process Flow Sheet for Absorbent Cotton
Making Machinery Required

9.STARCH DERIVATIVES PRODUCTION

Uses
Some Important Definitions
Raw Material
Process Description
General Process Flow for Starch-Derived Sweeteners (Corn/Glucose Syrups, High Fructose Syrups, Dextrose, Fructose, Maltodextrins and Syrup Solids)
1. Glucose Syrup
Dextrose Syrup
Sorbitol

10.WET - BLUE LEATHER

Raw Material
The Process
Soaking Chemicals
Liming Chemicals & Use Condition
Chemicals
Conditions
Machinery Required

11.PVC PASTE RESIN

PVC Resin Suspension Grade PVC
Emulsion Grade PVC Bulk Polymerised PVC Copolymer PVC K Value
Raw Material and Utilities Process Description VCM Receiving & Storage VCM Recovery VCM Purification
Dispersion Process Polymerization Process Drying Process Flow Diagram Machinery Required

12.SACCHARIN

Properties of Saccharin
Uses in Foods and Other Products
Process Description
Chlorosulfonic Acid Synthesis Process
Sulfonation
Amination and Refining
Oxidation Process
Concentration and Crystallization
Drying and Packing Process
Recovery of Oxidizing Agent and Catalyst
Raw Material
Flow Diagram
Machinery Required

13.SODIUM CHLORITE

Uses
Raw Materials
Process Description
Sodium Chlorite Manufacturing Process
Diagram Machinery Required

14.PHOSPHATE FERTILIZER

P is Essential for Plant Nutrition Types of Phosphorus Fertilizer Raw Material Process Description
(a) Superphosphate
(b) Fused Phosphate
(c) Fused and Superphosphate Complex
Fertilizer
Superphosphate Manufacturing Process
Flow Sheet Fused Phosphate Manufacturing Process
Flow Sheet Fused and Superphosphate Fertilizer
Manufacturing Process Flow Sheet Machinery Required Pollution Prevention and Control

15.TOMATO PASTE

Uses
Raw Material Requirements
Raw Material
Process Description
Receiving
Sorting
Juice Extraction
Evaporation
Aseptic Filling
Machinery Required

16.PAINT

Raw Material Products Specifications Flow Diagram Machinery Required

17.AUTOCLAVED AERATED CONCRETE (AAC BLOCKS)

Features
Raw Material
Advantages of Autoclaved Aerated Concrete
Blocks

Typical AAC Product Shapes Process Description Detailed Schematic Diagram of the Production Process Machinery Required

18.CARBON BLACK

Uses

Raw Material

Process Description

Reaction Section

Filtration

Pneumatic Conveying

Pelleting

Drying

Storage and Shipping

Process Flow Diagram

Machinery Required

19.CAFFEINE

General Details

Uses

Pharmacological Effects of Caffeine

Raw Material

Process

Making

Process Flow Diagram

Machinery Required

20.SODIUM HYDROSULFITE

Uses

Process of Manufacture Flow Diagram Required Machinery

21.MAGNESIUM SULPHATE (FERTILISER

GRADE) PLANT

Molecular Structure

Product Specification

Physical Properties

Main Feature

Uses

Raw Material

Manufacturing Process

From Mineral Kieserite

Reaction of Magnesium Oxide and Sulfuric

Acid Composition of Magnesium Sulphate

Heptahydrate Packaging Production Process Machinery Required

22. TMTBAR

Uses

Product Specification

Manufacturing Process

Quenching

Tempering

The Cooling Process Process Flow Diagram Machinery Required

23. GLASS FIBRE

Types of Glass Fibre

Properties

Uses

Raw Materials

Process Description

Process Flow Diagram

Schematic Diagram of Direct Melt Process for Continuous Filaments

Schematic Diagram of Marble Melt Process for Continuous Filaments Machinery Required

24. PLASTIC (P.V.C.) LAMINATED COLLAPSIBLE TUBES

Uses

Raw Material Required

Process

Process Flow Diagram

Machinery Required

25. COMPLEX FERTILIZERS

Complex Fertilizer for Vegetables

Characteristics

Component

Complex Fertilizer for Beans

Characteristics

Component

Briquette Complex Fertilizer for Forest

Characteristics

Complex Fertilizer for Field Crops

Characteristics

Component

Complex Fertilizer for Horticulture

Characteristics

Component

Complex Fertilizer Manufacturing

Description of NP & NPK Granulator Drying Screening Cooling

Polishing Screens Cyclone Separators Scrubbing Section Process Flow Diagram Equipments in Flow Chart

26. COPPER POWDER BY ELECTROLYSIS PROCESS

Product Specifications

Uses

Raw Material

Process Description

Cleaning of Powders

Process Flow Diagram

Machinery Required

27. ATOMIZED METAL POWDER

Examples of Metal Powders

Pure Metals

Alloys

Compounds

Uses

Metal Powder Applications

Powdered Components
Thermal Surfacing
Architectural
Decorative Applications
Industrial
Metal Powder Characteristics
Selection Criteria
Process Description
Machinery Required

28. ELECTROPLATING

Uses
Process Description
Polishing
Pretreatment
Plating
After-treatment
Electroplating Process Block Diagram
Machinery Required

29. ACTIVATED CARBON FROM WOOD

Uses of Activated Carbon
Typical Properties of Activated Carbon
Raw Materials
Manufacturing Process
Processing Steps
Flow Diagram
Machinery Required

30. RUBBER POWDER FROM WASTE TYRES

Uses of Rubber Powder
Manufacturing Process
Flow Diagram
Environmental Concerns of Tyre Recycling
Machinery Required

31. PRECIPITATED CALCIUM CARBONATE

Uses
Physical and Chemical Properties
Manufacturing Process
Flow Diagram
Required Machinery

32. PVC FLEX BANNER PRODUCTION

Process Description
Mixing
Extrusion
Tempering Rolls/Embossing Unit
Flow Diagram
Winding Station
Machinery Required

33. RECLAMATION OF USED ENGINE OIL

Uses
Process Description
Blending
Process Flow Diagram
Sludge Disposal (Pollution Control)
Machinery Required

34. EDIBLE CORN OIL

Process Description Required Machinery

35. MALT PRODUCTION

Standard Malt and Specialty Malt
Barley Conditioning
Malting
Malt Treatment
Process Flow Diagram
Machinery Required

36. ETHYL OLEATE

Properties
Oleic Acid
Uses
Process Description
Machinery Required

37. WHEAT FLOUR MILL

Composition of Wheat Properties of Wheat Flour Flour Mill Products Manufacturing Process Machinery
Required Cleaning Section: Machinery Milling Section: Machinery Conveying Equipments Refraction Grinding
System

38. INSTANT NOODLES

Manufacturing Process
Processing and Classification of Instant
Noodles Machinery Required

39. ZINC

Uses of Zinc Process Description Process Description Machinery Required Roasting Process Acid Making
Process Leaching Process Electrolysis Process Casting Process
Cd Making Process CuSO₄ Making Process

40. CASTOR OIL & POMACE

Uses
Agriculture
Food
Textile Chemicals
Paper
Plastics & Rubber
Perfumeries
Cosmetics
Electronics & Tele-Communications
Pharmaceuticals
Aints, Inks & Adhesives
Lubricants

General Specifications
Process Description
Process Flow Diagram

41. GARLIC OIL AND POWDER

Composition
Uses
Process Description
Process Flow Diagram
Machinery Required

42. SILICA FROM RICE HUSK

Composition of Rice Husk Ash on Dry Basis
1. Digestion
2. Precipitation
3. Regeneration
Process Flow Diagram
Machinery Required

43. THERMOCOL CUPS, GLASS AND PLATES

Uses
Food Packaging Like
Protective and Display Packaging
Other Applications
Process Description
Flow Diagram for EPS (Thermocol) Plates
Flow Diagram for Expanded Poly Styrene
Cups & Glass Machinery Required For Plates For EPS Glass & Cups

44. MATCH BOX (AUTOMATIC PLANT)

Raw Material Product Specification Process Description Match Box Manufacturing Filling
Finishing Process Process Flow Diagram

45. CAMPHOR

Uses
Production
Process Flow Diagram
Machinery Required

46. LDPE/LLDPE POUCH FILMS

Uses
Raw Materials Process Description Process Flow Diagram Machinery Required

47. E-WASTE RECYCLING

Effects on Environment and Human Health Effects of E-Waste Constituent on Health Components of
E-Waste Management Process Description Manual Dismantling and Sorting Mechanical Shredding and
Separation Metallurgical Processes Process Flow Diagram

48. CATTLE FEED

Raw Materials for Concentrate Feeds
Process Description
Reception of Raw Material
Storage of Raw Materials

Blending
Grinding
Process Flow Diagram
Machinery Required

49. SAW PIPE

Uses
Industries Serviced
Oil and Gas Pipeline
Power Plant
Water & Sewerage
Structural
Other Industrial
Raw Material
Product Specification
Process Description
The Making of Spiral Weld Pipes
Ultra-Sonic Testing
X-Ray Test and Fluoroscopy
Hydro Testing
Final Inspection, Visual Checking,
Weighing and Measuring Process Flow Diagram Machinery Required Pipe Manufacturing & Testing
Equipment

50. POLYETHYLENE WAX

Polyethylene Wax
Characteristic Properties of PE Wax
High Molecular Weight Polyethylene Wax
Low Molecular Weight Polyethylene Wax
Raw Material
Process Description
Reaction Conditions
Flow Diagram
Machinery Required

51. DISPOSABLE PLASTIC SYRINGES

Uses
Raw Material
Process Description
Plunger, Barrel & Gasket Production by
Injection Moulding Machine Advantages of Injection Moulding Assembly of Plunger, Barrel, Gasket and
Needle by Machine Process Flow Diagram Packing by Poly Bag or Blister Sterilization by EO Sterilization
Chamber Machinery Required

52. CEMENT

Uses
Types of Cement
Raw Material
Process Description
Mining and Crushing
Raw Mill
C.F. Silo and Preheater
Kiln Operation

Cement Grinding
Process Flow Diagram
Storage & Dispatch
Machinery Required

53. PHOTOGRAPH OF MACHINERY WITH SUPPLIERS CONTACT DETAILS

Noodle Making Machine
Grinding Machine
Cooling Tower
Chemical Reactors
Two Roller Mill
Crushing Machine
Heat Exchanger
Extruder
Pin Mill
Boiler
Hopper
Evaporators
Conveyor
Ball Mill
Vaccum Pump
Shaving Machine

About NIIR

NIIR PROJECT CONSULTANCY SERVICES (NPCS) is a reliable name in the industrial world for offering integrated technical consultancy services. NPCS is manned by engineers, planners, specialists, financial experts, economic analysts and design specialists with extensive experience in the related industries.

Our various services are: Detailed Project Report, Business Plan for Manufacturing Plant, Start-up Ideas, Business Ideas for Entrepreneurs, Start up Business Opportunities, entrepreneurship projects, Successful Business Plan, Industry Trends, Market Research, Manufacturing Process, Machinery, Raw Materials, project report, Cost and Revenue, Pre-feasibility study for Profitable Manufacturing Business, Project Identification, Project Feasibility and Market Study, Identification of Profitable Industrial Project Opportunities, Business Opportunities, Investment Opportunities for Most Profitable Business in India, Manufacturing Business Ideas, Preparation of Project Profile, Pre-Investment and Pre-Feasibility Study, Market Research Study, Preparation of Techno-Economic Feasibility Report, Identification and Section of Plant, Process, Equipment, General Guidance, Startup Help, Technical and Commercial Counseling for setting up new industrial project and Most Profitable Small Scale Business.

NPCS also publishes various process technology, technical, reference, self employment and startup books, directory, business and industry database, bankable detailed project report, market research report on various industries, small scale industry and profit making business. Besides being used by manufacturers, industrialists and entrepreneurs, our publications are also used by professionals including project engineers, information services bureau, consultants and project consultancy firms as one of the input in their research.

Our Detailed Project report aims at providing all the critical data required by any entrepreneur vying to venture into Project. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line.
