Manufacture of

Pan Masala, Tobacco and Tobacco Products

(Tobacco Cultivation, Chewing Tobacco, Cigarettes, Bidi, Cigars, Khaini, Zarda, Katha, Mouth Freshener, Pan Chatni, Kimam, Sweet Supari, Nicotine Sulphate, USP Nicotine, Nicotine Tartarate, Nicotine, Polacrilex Resin)

Tobacco comes from a leafy plant that tends to grow in warm tropical areas. It is famously grown all over the Caribbean, where the warm, sunny conditions make for a perfect growing climate. Tobacco is usually smoked as a nicotinic stimulant and is mostly processed, rolled and dried before being smoked. Different geographies produce different types of the plant. The taste and flavor of the leaves are the characteristic trademarks of different types. The process of curing also determines the type of tobacco.

Tobacco products include cigarettes, cigars, loose pipe tobacco, chewing tobacco and snuff. These products contain the dried, processed leaves of the tobacco plant *nicotiana rustica* or *nicotiana tabacum*. All tobacco contains nicotine, an addictive drug. Today's tobacco also contains thousands of other chemicals designed to make the products more user-friendly and addictive.

Nicotine is a nitrogen-based compound which dissolves in organic compounds. Tobacco leaves contain plenty of nicotine which evaporates on burning. This nitrogen-based compound is addictive in low amounts and toxic in high doses. Nicotine Sulfate is a potent pesticide, known for its high toxicity.

A large proportion of Indian economy is agro based in which Tobacco is one of the principal cash crops. The tobacco production and its allied products' sales in the country have played a prominent role in the development of nation's economy. India is the largest tobacco market in the world in terms of tobacco consumption. The smokeless tobacco has historically been served as a tradition in India for many decades. Tobacco Waste or dust is generated at various stages of post-harvest processing of tobacco and also while manufacturing various tobacco products mainly during manufacture of tobacco products like cigarette and Beedi. The types of wastes generated during pre and post-harvest practice of tobacco include suckers, stems, mid ribs, leaf waste and dust.

The main contents of the book are Tobacco Cultivation, Tobacco Diseases and Pests, Organic Tobacco Production, Chewing Tobacco, Cigarettes, Bidi, Cigars, Readymade Khaini, Chewing Tobacco (Khaini), Zarda, BIS Specifications, Katha, Mouth Fresheners, Pan Chutney, Pan Masala, Kimam, Tobacco of Various Grade, Sweet Supari, Nicotine Sulphate, USP Nicotine, Nicotine Tartarate, Nicotine Polacrilex Resin, Smokeless Tobacco (SLT), Hookah, Tobacco Products Manufacturing Processes, E-Liquid (Main Chemicals, Compounds, Components), Additives in Tobacco Products, Additives Products, Packaging & Labeling (Design Trends & Technologies), Plastics in Food Packaging, Packaging Laws and Regulations and

Photographs of Machinery with Supplier's Contact Details.

This book is one-stop guide to one of the fastest growing sector of the Pan Masala, Tobacco and Tobacco Products, where opportunities abound for manufacturers, retailers, and entrepreneurs. This is the only complete handbook on Pan Masala, Tobacco and Tobacco Products. It serves up a feast of how-to information, from concept to purchasing equipment.

## Contents

### 1. INTRODUCTION

- History of Tobacco
- Varieties of Tobacco
- Origin and Distribution
- Area and Production
- Types of Tobacco
- Climate and Soil
- Tobacco Growing
- Nursery Management
- Tillage
- Topping
- Desuckering or Suckering
- Ecological Requirement for Tobacco Cultivation
- (A) Climatic Requirement for Tobacco Cultivation
- (B) Soil Requirement for Tobacco Cultivation
- Harvesting of Tobacco
- Favoring Leaf Growth
- After the Harvest
- Curing Tobacco Leaves
- Air-cured Tobacco Leaves
- Flue-cured Tobacco Leaves
- Sun-cured Tobacco Leaves
- Fermenting (A.K.A. Sweating) Tobacco Leaves
- Stacking
- Kiln Fermenting
- Methods of Harvesting
- Priming
- Stalk Cut Method
- Harvesting Method of Tobacco Based on Different Types
- Plant Protection
- 1. Pests
- Tobacco Leaf-Eating Caterpillar
- Controls
- 2. Stem Borers
- Control
- 3. Aphids
- Control
- 2. TOBACCO CULTIVATION
- Soils
- Climate
- Preparing the Seedbeds
- Sowing the Seeds

Crop Cultivation  
Transplanting  
Fertilize  
Irrigate  
Topping and Suckering  
Worms and Suckers  
Tobacco Growing  
Varieties of Tobacco Growing in Different States  
FCV Tobacco (A.P.)  
HDBRG Tobacco  
Burley Tobacco  
Natu Tobacco  
Lanka Tobacco  
Bidi Tobacco  
Chewing and Hookah Types of Tobacco  
Wrapper, Filler, Jati & Motihari Tobacco in North Bengal  
Types of Soil Required for Tobacco Cultivation  
Northern Black Soils (NBS)  
Central Black Soils (CBS)  
Southern Black Soils (SBS)  
Southern Light Soils (SLS)  
Northern Light Soils (NLS)

## 23. SMOKELESS TOBACCO (SLT)

The Smokeless Industry

Chemical Composition of Smokeless Tobacco

Nicotine Content in Smokeless Tobacco

Carcinogenic Compounds in Smokeless Tobacco

(a) Volatile N-nitrosamines

(b) PAHs

(c) Other Carcinogenic Compounds and

Constituents

Types of Smokeless Tobacco

Snuff

Snus

Dissolvable Tobacco

Pattiwala

Gutka

Dry Snuff (Tapkeer)

Uses of Smokeless Tobacco

(a) Betel Quid with Tobacco

(b) Chimó

(c) Creamy snuff

(d ) Dry Snuff

(e) Gudhaku

(f) Gul

(g) Gutka

(h) Iq'mik

(i) Khaini

(j) Khiwam

(k) Loose-leaf

(l ) Maras

(m) Mawa

(n) Mishri

(o) Moist Snuff

(p) Naswar

(q) Plug Chewing Tobacco

(r) Red Tooth Powder

(s) Shammah

(t) Snuff

(u) Tobacco Chewing Gum

(v) Tobacco Tablets

(w) Toombak

(x) Tuibur

(y) Twist/Roll Chewing Tobacco

(z) Zarda

Nasal Use

(a) Dry Snuff

(b) Liquid Snuff

## 24. HOOKAH

How Hookah Tobacco is Manufactured

Which Hookah Coals are Best for Pipes?

How to Set up a Hookah

Hookahs are Built by Combining Multiple Parts

Hookahs Today

Components

The Bowl

Windscreen (Optional)

Hose

Body and Gaskets

Purge Valve (Optional)

Plate

Grommets

Operation

What is a Water Bong? How does a Water Bong Work?

What's a Smoking Pipe? How does a Pipe Work?

Storing Your Shisha Molasses

Charcoal

Dehydration

Hookah Flavors of All Time

1. Al Fakher Mint
2. Tangiers Noir Cane Mint
3. Starbuzz Blue Mist
4. Nakhla Double Apple
5. Al Fakher Double Apple
6. Starbuzz Pirates Cave
7. Social Smoke Absolute Zero
8. Fumari White Gummi Bear

## 25. TOBACCO PRODUCTS MANUFACTURING PROCESSES

Primary Tobacco Processing

Expanded Tobacco Process

Flavor Making

Reconstituted Tobacco Manufacturing

## 26. E-LIQUID (MAIN CHEMICALS, COMPOUNDS, COMPONENTS)

Main Components

Propylene Glycol (PG) Vegetable Glycerine (VG)

Polyethylene Glycol (PEG)

Propylene Glycol is

Vegetable Glycerin also known as Glycerol - is

Pharmaceutical Grade Glycerine is Named

Glycerine, USP

Composition

Main Components

Main Chemicals, Compounds, Components

Propylene (PG)

Vegetable Glycerin (VG)

Nicotine

Chemistry's Role

## 27. ADDITIVES IN TOBACCO PRODUCTS

Reasons for Adding Additives to Cigarettes

GRAS and FEMA Approval of Tobacco Additives

Carob Bean Extract

Function of the Additive

Amount of Carob Bean Extract Added to Cigarettes

Pyrolysis and Reaction Products in Cigarette

Smoke

Cellulose Fibre

Function of the Additive

Amount of Cellulose Fibre

Guar Gum

Function of the Additive

Amount of Guar Gum Added to Cigarettes

Pyrolysis and Reaction Products in Cigarette

Smoke

Liquorice

Function of the Additive

Amount of Liquorice Added to Cigarettes

Pyrolysis and Reaction Products in Cigarette

Smoke

Menthol

Function of the Additive

Amount of Menthol Added to Cigarettes

Prune Juice Concentrate

Function of the Additive

Pyrolysis and Reaction Products in Cigarette

Smoke

Vanillin

Function of the Additive

Amount of Vanillin Added to Cigarettes

## 28. GLOSSARY OF TERMS FOR TOBACCO AND TOBACCO PRODUCTS

1. Scope

2. Terms

## 29. PACKAGING & LABELING (Design Trends & Technologies)

Reclosability

Spout & Fitments

Flexible Packaging Shapes

Retort - Shelf Stable

Stick-Packs

Food Supply and the Protective Role of Packaging

The Value of Packaging to Society

Definitions and Basic Functions of Packaging

## About NIIR

**NIIR PROJECT CONSULTANCY SERVICES (NPCS)** is a reliable name in the industrial world for offering integrated technical consultancy services. NPCS is manned by engineers, planners, specialists, financial experts, economic analysts and design specialists with extensive experience in the related industries.

Our various services are: Detailed Project Report, Business Plan for Manufacturing Plant, Start-up Ideas, Business Ideas for Entrepreneurs, Start up Business Opportunities, entrepreneurship projects, Successful Business Plan, Industry Trends, Market Research, Manufacturing Process, Machinery, Raw Materials, project report, Cost and Revenue, Pre-feasibility study for Profitable Manufacturing Business, Project Identification, Project Feasibility and Market Study, Identification of Profitable Industrial Project Opportunities, Business Opportunities, Investment Opportunities for Most Profitable Business in India, Manufacturing Business Ideas, Preparation of Project Profile, Pre-Investment and Pre-Feasibility Study, Market Research Study, Preparation of Techno-Economic Feasibility Report, Identification and Section of Plant, Process, Equipment, General Guidance, Startup Help, Technical and Commercial Counseling for setting up new industrial project and Most Profitable Small Scale Business.

NPCS also publishes various process technology, technical, reference, self employment and startup books, directory, business and industry database, bankable detailed project report, market research report on various industries, small scale industry and profit making business. Besides being used by manufacturers, industrialists and entrepreneurs, our publications are also used by professionals including project engineers, information services bureau, consultants and project consultancy firms as one of the input in their research.

Our Detailed Project report aims at providing all the critical data required by any entrepreneur vying to venture into Project. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line.
