

# **Handbook on Speciality Gums, Adhesives, Oils, Rosin & Derivatives, Resins, Oleoresins, Katha, Chemicals with other Natural Products**

**Author:-** H.Panda

**Format:** paperback

**Code:** NI149

**Pages:** 834

**Price: Rs.2175US\$ 150**

**Publisher:** NIIR PROJECT CONSULTANCY SERVICES

Usually ships within **5** days

The forest in India yields a large number of products, which play an important role in the economy of the country. Natural products may be extracted from tissues of terrestrial plants, marine organisms or microorganism fermentation broths. A crude (untreated) extract from any one of these sources typically contains novel, structurally diverse chemical compounds, which the natural environment is a rich source of. There are numerous product which is has a vital commercial applications for example gum karaya, locust bean gum, tamarind gum, rosin and rosin derivatives, turpentine and its derivaties, tall oil and its derivatives, essential oil of deodar, essential oils of cinnamum species and many more. Gum is any of a number of naturally occurring resinous materials in vegetative species. Various essential oils are also obtained from natural resources like deodar, Juniperus recurvavar, Suamata, Cinnamum species, agar wood etc. Tall oil products find use in many product applications because of their economy and ready availability. Tall oil is more like a chemical product with a constant and dependable supply and a steady price. It has a large number of applications like; adhesives, carbon paper, cement addition agent, detergents, drawing oils, fungicides, lubricants, soaps, rubber additives, surface coating etc. Phenolic adhesives continue to be the most significant adhesives for the production of weather resistant wood products. In terms of volume of trade, revenue and employment potential, the minor forest products have surpassed the traditional major forest products viz, timber, firewood, pulp, wood etc. Aromatic and medicinal plants are one the major resource from forests; the medicinal plants have been used since ancient times for the treatment of human ailments. Rosin, also called colophony is a solid form of resin obtained from pines and some other plants, mostly conifers, produced by heating fresh liquid resin to vaporize the volatile liquid terpene components. It is semi transparent and varies in color from yellow to black. At room temperature rosin is brittle, but it melts at stove top temperatures. It chiefly consists of different resin acids, especially abietic acid. Oleoresin is a naturally occurring mixture of oil and a resin extracted from various plants, such as pine or balsam fir. Over three quarters of the world population relies mainly on plants and plant extracts for health care. Natural products have evolved to encompass a broad spectrum of chemical and functional diversity. It is this diversity, along with their structural complexity, that enables small natural molecules to target a nearly limitless number of biological macromolecules and often to do so in a highly selective fashion. Because of these characteristics, natural products have seen great success as therapeutic agents. However, this vast pool of compounds holds much promise beyond the development of future drugs.

This book makes an attempt to provide information of chemical nature, physical properties,

manufacturing process, purification, applications, and compatibility of gums, adhesives, oils, rosin & derivatives, resins, oleoresins, katha, chemicals with other natural products. This book contains chapter on rosin and rosin derivatives, esterification of methylolated rosin, turpentine and its derivatives, tall oil and its derivatives, tall oil in liquid soaps, essential oils of cinnamum species, utilization of tannin from waste conicer barks, katha production in Tarai area of Uttar Pradesh, adhesives for wood based on natural polyphenolic substance, etc.

This book contains process of forest based products like Gums, Resins, Oleoresins, Essential Oils and other natural products obtained from Indian forests. It gives an insight of richness and vastness of the forest wealth. This book is first of its kind, which covers comprehensive treasure of information on a wide variety of products. This is very resourceful book for students, growers and marketing agencies, country where there is rich flora and fauna awaiting proper exploitation, production and utilization.

## CHAPTER 1

### GUM GHATTI

## CHAPTER 11

### TALL OIL AND ITS DERIVATIVES

Production Processes for Tall Oil  
Recovery of Tall Oil  
Acid Refining of Tall Oil  
Fractionation of Tall Oil  
Composition and Properties of Tall Oil  
Crude Tall Oil  
Distilled Tall Oil  
Acid Refined Tall Oil  
Fractionated Tall Oil  
Analysis and Testing of Tall Oil Products  
Shipping, Storage, and Handling of Tall Oil Products  
Crude Tall Oil  
Acid Refined Tall Oil  
Tall Oil Fatty Acids and Distilled Tall Oils  
Tall Oil Heads  
Tall Oil Pitch  
Tall Oil Rosin  
Applications of Tall Oil

## CHAPTER 12

### THE CHEMISTRY OF TALL OIL FATTY AND ROSIN ACIDS

Chemical Composition of Tall Oil Fatty Acids

General Reactions of Tall Oil Fatty Acids

Reactions Involving the Double Bonds

Reactions Involving the Carboxyl Group

Chemical Composition of Tall Rosin

General Reactions of Tall Oil Rosin

Reactions Involving the Carboxyl Group

Reactions Involving the Double Bonds

## CHAPTER 13

### TALL OIL PRODUCTS IN SURFACE COATINGS

Tall Oil in Alkyd Resins

Tall Oil Formulation in Alkyd Resins

Short Oil Banking Alkyd solvent Process

Short Oil Banking Alkyd fusion Process

Long Oil Alkyd fusion Process

Rosin Modified Alkyd fusion Process

Epoxy Modified Alkyd

Esters of Tall Oil Products Tall Oil Fatty Acids

Tall Oil Rosin

Tall Oil Formulations in Esters

Glycerine Ester

Maleic Modified Ester

Distilled Tall Oil Epoxy Ester

Tall Oil Pitch

Other Uses for Oil Products

Limed Tall Oil Rosin

Limed Acid Refined or Distilled Tall Oils

Styrene Resins

Latex Paints

Polyurethanes

Putty and Caulking Compounds

Varnishes

Tallate Driers

Tempering Oils for Hardboard

## CHAPTER 14

### TALL OIL IN THE PLASTICIZER FIELD

Tall Oil Plasticizers

Esterification of Tall Oil for Plasticizers

## CHAPTER 15

### TALL OIL IN ADHESIVES AND LINOLEUM CEMENT

Tall Oil Rubber Adhesives

Tall Oil in Hot Melt Adhesives

Tall Oil Products in Linoleum Cements

Formulation With Tall Oil

Formulation With Tall Oil Esters

## CHAPTER 16

## TALL OIL IN ASPHALT PRODUCTS AND PETROLEUM USES

Tall Oil in Asphalt

Roads

Soil Treatments

Roofing

Adhesives

Antistripping Agents

Plasticizers

Miscellaneous

Tall Oil in Petroleum Applications

Oil and Gas Well Fracturing

Drilling Muds

Demulsification Agents

Corrosion Inhibitors

Catalyst

Lubricating Oil Additives

## CHAPTER 17

### TALL OIL IN LIQUID SOAPS

Tall Oil in Disinfectants

Tall Oil in Synthetic Detergents and Wetting Agents

Syndet Types

Syndet Products

Tall Oil in Biodegradable Detergents

## CHAPTER 18

### TALL OIL IN FLOTATION COLLECTORS AND CORE OILS

Tall Oil in Flotation Collectors

Flotation Collectors

Flotation Applications

Tall Oil in Core Oils

## CHAPTER 19

### TALL OIL IN RUBBER

Styrene butadiene Rubber

Cold SBR Formulation (SBR 1500 Series)

Hot SBR Formulation (SBR 1000 Series)

Cold High Solids SBR 2105 Latex Formulation (SBR 2100 Series)

Hot SBR Latex Formulation (SBR 2000 Series Type II)

Foam Rubber

## CHAPTER 20

### TALL OIL IN PAPER SIZE

Paper Making Process

Rosin Sizing Materials

Forms of Size Available

Paste Size

Dry Size

Methods of Preparing Liquid Size

Cooking Process

Emulsion Process

Bewoid Process

Delthirna Process

Internal and External Sizing  
Effect of Wet Strength Resins and  
Paper Coating Resins on Sizing  
Sizing of Nonconventional Paper  
Testing of Sizing  
Water Resistance of Paper and Paperboard T433 M 44  
(Dry Indicator Method)  
Water Immersion Test of Paperboard  
Water Absorption of Paperboard  
Water Absorptiveness of Nonbibulous Paper and Paperboard  
T441 M 60 (Cobb Test)  
Degree of Curl and Sizing of Paper T466 M 52  
Ink Penetration Test  
Fotosize Penetration Test Lactic Acid Test

## CHAPTER 21

### TALL OIL IN PRINTING INKS

Typographic Printing and Typographic Inks  
Heat Set Inks  
Steam Set Inks  
Newsprint Inks  
Lithographic Printing and Lithographic Inks  
Intaglio or Gravure Printing and Gravure Inks  
Silk Screen Printing Inks  
Overprint Varnishes  
Bag Inks

## CHAPTER 22

### MISCELLANEOUS APPLICATIONS OF TALL OIL

Tall Oil Fatty Acids for Chemical Intermediates  
Polymerized Fatty Acids  
Azelaic and Pelargonic Acids  
Tall Oil in Corecipitated Barium Salts  
Tall Oil in Defoamers  
Tall Oil Pigment Dispersants  
Tall Oil in Masonry and Cement Coatings

## CHAPTER 23

### EUCALYPTUS : A VERSATILE MATERIAL FOR AROMA CHEMICALS

STYRENE COPOLYMERIZATION OF BABUL (ACACIA)  
OIL AND ITS ALKYL  
Experimental Materials Used

Refining and Bleaching of the Oil  
Isomerization  
Styrenation of Babul Oil  
Preparation of Styrenated Alkyds  
Pre styrenation Process  
Formulation  
Post Styrenation Process  
Formulation  
Testing  
Results and Discussion  
Conclusion

#### CHAPTER 53 INVESTIGATION OF NEEM SEED SHELL FLOUR

Experimental : Preparation of Sample  
Treatment of the Shell Flour  
Preparation of Moulding Powder

#### CHAPTER 54 DEVELOPMENT OF SALSEED OIL INDUSTRY

#### CHAPTER 55 STUDIES ON TAMARIND KERNEL OIL

Experimental : Materials  
General Methods  
Extraction, Purification and General Characterization of  
Tamarind Kernel Oil  
Analysis of Fatty Acid Composition  
Extraction and Identification of Monoglycerides  
Extraction and Identification of Free Fatty Acids  
Isolation and Characterization of Unsaponifiable Matter  
Fractionation of Tamarind Kernel Oil  
Analysis of Neutral Lipids  
Deacylation of Phospholipid Fractions  
Hydrolysis of Phospholipids, Identification of Bases  
Identification of Polyhydroxy Compounds  
Analysis of Glycolipid Fraction  
Identification of Component Sugars  
Tlc Analysis of Glycolipid Fraction  
Analysis of Sterol Glycoside  
Componental Analysis of Asg  
Results and Discussion : Total Fatty Acids  
Neutral Lipids  
Unsaponifiable Matter  
Samples Phospholipids  
Glycolipids

#### CHAPTER 56 TECHNOECONOMIC EVALUATION OF ANGELICA ARCHANGELICA ROOTS AS A COMMERCIAL SOURCE OF ANGELICA OIL Materials and Methods Technoeconomic Evaluation

CHAPTER 57  
COMMERCIAL UTILISATION OF INDIAN BERBERSIS  
Raw Material  
Chemical Evaluation  
Resources

CHAPTER 58  
PROCESS DEVELOPMENT FOR HECOGENIN AND  
SOLASODINE  
Hecogenin From Agave Species  
Solasodine From : Solanum Khasianum

Appendix III : Plants Bearing Edible and  
Appendix IV : Plants Bearing Tannins  
Appendix V : Plants Bearing Essential Oils

CHAPTER 63  
UTILIZATION OF APRICOT KERNELS AND  
A SOURCE OF VITAMIN B15

CHAPTER 64  
SOLVENT EXTRACTION OF ARTEMISIA ANNUAL ON  
PILOT PLANT SCALE  
Experimental Procedure  
A. Bench Scale Study

B. Pilot Plant Scale Study  
Results and Discussion

CHAPTER 65

CANDELILLA WAX

Results and Discussion

Transplanting and Harvesting

Yield of Stems and Wax

Physico Chemical Properties

Results & Discussion

CHAPTER 66

CHEMURGY OF KALPVRIKSHA

Collection

Transportation

Drying

Decortication

Crushing/Extraction

Solvent Extraction

Saponin

Wet Rendering Process

Production of Palmitic Acid

High Pressure Splitting

Meal

Seed Coat

CHAPTER 67

UTILIZATION OF MOHUA FLOWERS FOR  
CITRIC ACID PRODUCTION

Materials and Methods

Microorganism

Growth of the Organism

Viscosity

Determination of Sugar

Determination of Citric Acid: Fermentation Conditions

Results and Discussion

Effect of Cultural Conditions of Citrate Production

CHAPTER 68

INDUSTRIAL UTILIZATION OF KOKAM

CHAPTER 69

NUTRITIVE VALUE OF SOME LESSER KNOWN  
WILD FRUITS OF JAMMU & KASHMIR STATE

Availability and Utilization

Experimental

Results and Discussion

CHAPTER 70

WILD VEGETABLE FOOD MATERIALS OF JAMMU AND KASHMIR

Bauhinia Variegata Linn

Bombax Ceiba Linn

Capparis Spinosa Linn

Caralluma Tuberculata N.E. Br.  
Cicer Soongaricum Stapf  
Coccinia Cordifolia  
Codonopsis Ovata Benth  
Corylus Colurna Linn.  
Diplaium Esculentum  
Emblica Officinalis Gaertn.  
Eremurus Spp.  
Euphorbia Royleana Linn.  
Megacarpaea Polyandra Benth.  
Momordica Dioica Roxb.  
Morniga Oleifera Lamk  
Punica Ranatum Linn  
Rheum Spp. R.emodi Wall  
Taraxacum Officinale Weber  
Telosma Pallia Craib. (D.Goalmanda)

#### CHAPTER 71

#### EDIBLE MUSHROOMS OF JAMMU & KASHMIR FORESTS

Morels (Morchella Sp.)  
Dhingri (Pleurotus)  
Pleurotus Fossulatus (Cooke) Sacc  
Pleurotus Flabellatus (Berk, and Br.) Sacc; Vern  
Other Edible Mushrooms  
Coprinus  
Geopora Arenicola  
Boletus Sp.  
Agrocybe Cylindracea (D.C. ex. Fr) R.maire  
Flammulina Velutipes Curt. Ex. Fr. (Karst): Lactarius  
Scrobiculatus Scop. Ex. Fr.  
Tuber Cibarium Sibth.

#### CHAPTER 72

#### PROSPECTS OF FURFURAL AND FURFURAL BASED INDUSTRIES IN INDIA

Uses  
Conventional Processes  
Possibilities  
Conclusion

#### CHAPTER 73

#### KEWDA INDUSTRY IN ORISSA

Distribution Pattern and Availability of the Plant  
Historical Development and Present Set Up of the Industry  
Uses and Demand of the Perfume  
Collection  
Distillation  
Cost Estimation  
Present Position and Future Prospects of the Industry

#### CHAPTER 74

#### PENCIL RAW MATERIALS IN KERALA

Industry A Birds Eye View

Specification of Wood  
Species Used and Availability  
Some Suggestions conclusion  
Conclusion

## CHAPTER 75

### FOREST BASD RAW MATERIALS IN NEPAL

Tropical Zone (below 1000 M)  
Sub Tropical Zone (1000 2000 M)  
Temperate Zone (2000 3000 M)  
Sub Alpine Zone (3000 4000 M)  
Climate and Temperature  
Raw Materials  
Plants Yielding Vegetable Gums and Resins  
Bengal Kino Gum or Palash Gum  
Sal Gum  
Sahanjan Gum

## CHAPTER 76

### MINOR FOREST PRODUCTS OF BIHAR

## CHAPTER 77

### INDUSTRIALLY IMPORTANT MINOR FOREST PRODUCTS OF ORISSA

Plants Used in Drug and Pharmaceutical Industry  
Plants Used in Perfumery Industry  
Vetiveria Zizanioides (Vetiver)  
Cymbopogen Flexuosus (Lemongrass)  
Hyptis Suavelens (Linn.) Poit  
Plants Yielding Gums and Resins of Industrial Use  
Plants Used in Vegetable Oil and Fat Industry  
Madhuca Latifolia (Roxb)  
Pongamia Pinnate (Linn.)  
Sehleicheria Elesia (Lour)  
Plants Used in Food or Food colourant Industries  
Bixa Orellana Linn  
Plants Used in Leather Tanning Industry  
Cleistanthus Collinus (Karade)  
Broomgrass for Broom Industry  
Kendu for Bidi Manufacturing Industry  
Bamboo for Pulp in the Paper Industry  
Fibre Yieldig Plants for Cordage Industry

List of Address of Machinery Suppliers

## About NIIR

**NIIR PROJECT CONSULTANCY SERVICES (NPCS)** is a reliable name in the industrial world for offering integrated technical consultancy services. NPCS is manned by engineers, planners, specialists, financial experts, economic analysts and design specialists with extensive experience in the related industries.

Our various services are: Detailed Project Report, Business Plan for Manufacturing Plant, Start-up Ideas, Business Ideas for Entrepreneurs, Start up Business Opportunities, entrepreneurship projects, Successful Business Plan, Industry Trends, Market Research, Manufacturing Process, Machinery, Raw Materials, project report, Cost and Revenue, Pre-feasibility study for Profitable Manufacturing Business, Project Identification, Project Feasibility and Market Study, Identification of Profitable Industrial Project Opportunities, Business Opportunities, Investment Opportunities for Most Profitable Business in India, Manufacturing Business Ideas, Preparation of Project Profile, Pre-Investment and Pre-Feasibility Study, Market Research Study, Preparation of Techno-Economic Feasibility Report, Identification and Section of Plant, Process, Equipment, General Guidance, Startup Help, Technical and Commercial Counseling for setting up new industrial project and Most Profitable Small Scale Business.
