Entrepreneurship is one of the critical decisions to be made and it involves number of risk and has its own advantages also. But the charm of being a master of you is always above any other form of work. Setting up a business requires many things. Understanding yourself, understanding market, availing funds are certain basic things that one must mandatorily know before making a business decision. In fact before starting a business also one has to be thorough with the requirements of current line of industry. Above all taking advantage of various schemes provided by government and other financial institutions. Everyone wants to do something that gives them chance to earn more money and it is possible by becoming an entrepreneur. Starting your own business is one of the few remaining paths to wealth. To start you own venture you have to decide on many things. Making a choice of the right project is a difficult decision for an entrepreneur and is an imperative decision. For the reason that rest of the challenges for setting up a business is based on the type of the product and fund to invest. But it is a perception that for owning a business you should have handsome amount of money. Now it is possible with small scale business.

Startup India Stand up

Our Prime Minister unveiled a 19-point action plan for start-up enterprises in India. Highlighting the importance of the Standup India Scheme, Hon'ble Prime minister said that the job seeker has to become a job creator. Prime Minister announced that the initiative envisages loans to at least two aspiring entrepreneurs from the Scheduled Castes, Scheduled Tribes, and Women categories. It was also announced that the loan shall be in the ten lakh to one crore rupee range.

A startup India hub will be created as a single point of contact for the entire startup ecosystem to enable knowledge exchange and access to funding. Startup India campaign is based on an action plan aimed at promoting bank financing for start-up ventures to boost entrepreneurship and encourage startups with jobs creation.

Startup India is a flagship initiative of the Government of India, intended to build a strong ecosystem for nurturing innovation and Startups in the country. This will drive sustainable economic growth and generate

large scale employment opportunities. The Government, through this initiative aims to empower Startups to grow through innovation and design.

What is Startup India offering to the Entrepreneurs?

Stand up India backed up by Department of Financial Services (DFS) intends to bring up Women and SC/ST entrepreneurs. They have planned to support 2.5 lakh borrowers with Bank loans (with at least 2 borrowers in both the category per branch) which can be returned up to seven years.

PM announced that “There will be no income tax on startups’ profits for three years”

PM plans to reduce the involvement of state government in the startups so that entrepreneurs can enjoy freedom.

No tax would be charged on any startup up to three years from the day of its establishment once it has been approved by Incubator.

The book is an attempt to provide certain basic knowledge for starters. Starting a small scale enterprise requires understanding steps in setting up an SSI, Registration/Licenses for SSI(Small Scale Industry), Resourcing, Technical Know How and so on the book has chapters on the concerned subject for better understanding of a starter. Various Policies and programmes for rural development, Prime Minister Rozgar Yozna, rural women entrepreneurship in India, bright prospects, industrial innovations by small and medium sized enterprises, Indian small industry, organisation, supporting entrepreneurship, development in India etc are also the subject matter of the book. Every chapter has several other sub chapters making the topic clear and better to understand. In the end of the book a directory section is enclosed containing Industries Department addresses, Service Institutes, Branch Institutes, and Extension Centres in various Indian States.

Contents
