

# **Modern Technology of Petroleum, Greases, Lubricants & Petro Chemicals (Lubricating Oils, Cutting Oil, Additives, Refining, Bitumen, Waxes with Process and Formulations) 3rd Revised Edition**

**Author:** NIIR Board of Consultants & Engineers

**Format:** Paperback

**ISBN:** 9789381039618

**Code:** NI45

**Pages:** 624

**Price:** Rs. 1,995.00 **US\$** 52.95

**Publisher:** NIIR PROJECT CONSULTANCY SERVICES

Usually ships within **5** days

Lubricants, greases and petrochemicals are most versatile on the Industrial Plateau now a day. The significance of Lubricants, Greases and specialty products in the day to day functioning of nearly every machine part, instrument, appliance & device cannot be over emphasized lubricants reduce friction & wear between rubbing parts, thereby enhancing their life. A lubricant is a substance introduced to reduce friction between moving surfaces. It may also have the function of transporting foreign particles. The property of reducing friction is known as lubricity. The broad types of lubricating oils are as under; crankcase oils, gear oils, metal working oils, metal drawing oils, spindle and other textile oils, steam turbine oils. Synthetic lubricants have a higher viscosity index, but are less stable to oxidation. They are suitable for high temperature applications. In the modern industrial year, greases have been increasingly employed to cope with a variety of difficult lubrication problems, particularly those where the liquid lubricant is not feasible. Greases are essentially solid or semi solid lubricants consisting of gelling or thickening agent in a liquid lubricant. Greases and lubricants are one of the important products derived from crude petroleum. Petroleum is formed by hydrocarbons (a hydrocarbon is a compound made up of carbon and hydrogen) with the addition of certain other substances, primarily sulphur. Petroleum in its natural form when first collected is usually named crude oil, and can be clear, green or black and may be either thin like gasoline or thick like tar. The principal product of petroleum refining are motor gasoline, aviation gasoline, kerosene, jet fuels, diesel fuels, lubricating oils and fuel oils. Considerable quantities of petroleum wax, bitumen, liquid petroleum gases (LPG), industrial naphtha and coke are also produced. Petrochemicals are chemicals made from petroleum (crude oil) and natural gas. Petroleum and natural gas are made up of hydrocarbon molecules, which are comprised of one or more carbon atoms, to which hydrogen atoms are attached. The Indian lubricants industry claims to be the sixth largest in the world. The petrochemical industry in India has been one of the fastest growing industries in the country. This industry also has immense importance in the growth of economy of the country and the growth and development of manufacturing industry as well. Some of the fundamentals of the book are types of lubricating oils, crankcase oils, gear oils, metal working oils, metal drawing oils, spindle and other textile oils, steam turbine oils, synthetic lubricants, formulations and compounding of lubricants, additives for straight mineral oil gear lubricants, raw materials for lubricants, equipments for lubricants manufacture, reclamation of used lubricating oil, nature of contaminants in used lubricating oil, gravity methods of purification, metal forming and deforming lubricant, cutting oils, heat

treatment oils, greases, sodium soap greases, lithium soap greases, aluminium soap greases, mixed soap greases, complex soap greases etc.

The objective of this book is to furnish comprehensive information about nearly all prominent types of lubricants, greases and petrochemicals. This book covers formulae, processes of various petroleum items. This book is an invaluable resource for entrepreneurs, existing units, professionals, institutions etc.

## Contents

### 1. TYPES OF LUBRICATING OILS

- Crankcase Oils
- Gear Oils
- Metal Working Oils
- Metal Drawing Oils
- Spindle and Other Textile Oils
- Steam Turbine Oils
- Synthetic Lubricants
- Miscellaneous Oils
- Fatty Oils
- Residual and Petrolatums as Lubricants
- Asphalt Residual as Lubricants
- Application of Asphalt Residual as Lubricants
- Petrolatums as Lubricants
- Paraffin Wax as Lubricant
- Resinous Materials as Lubricants
- Solid Lubricants
- Thickeners
- Carbohydrates and Proteins as Thickeners
- Polymers as Thickening Agents
- Acetylene Black as a Thickener
- Petroleum Lubricants
- Bolt Lubricants
- Cryogenic Bearing Lubricants
- Lubricants for Missile Systems
- Lubrication with Glass

### 2. FORMULATIONS AND COM-POUNDING OF LUBRICANTS

- Additives for straight Mineral Oil gear Lubricants
- Formulation of Open or Exposed Lubricants
- Formulation of mild type E.P. Lubricants
- Aircraft Lubricant
- Miscellaneous Formulation

### 3. RAW MATERIALS FOR LUBRICANTS

- Test for good fatty acid
- Preformed Soaps
- Advantages and the Use of Preformed Soaps
- Lubricating Oil
- Gravity of Lubricating Oil
- Pour Point of Oil
- Dyes for Colour
- Perfume
- Filler
- Synthetic Lubricants

#### 4. EQUIPMENTS FOR LUBRICANTS MANUFACTURE

Equipments

Handling Packaged Raw Material

Equipment for Saponification

Equipment for Dispersion of Thickening Agents

Manufacture of Lubricating Oils

Milling Equipment

#### 5. RECLAMATION OF USED LUBRICATING OIL

Nature of Contaminants in Used Lubricating Oil

Gravity Methods of Purification

Filtration

Regenerating Process of Used Lube Oil

Contaminants present in Used Lube Oil

Principles of Used Lube Oil

Existing Process for Regeneration of Used Lubricating Oils

Lubricant Recycling

Reprocessing

Reclamation

#### 6. ADDITIVES FOR LUBRICANTS

Antioxidants, Rust & Corrosion Inhibitors

Extreme Pressure Additives Antiwear Agents

Foam Inhibitors

Viscosity Index Improvers

Detergents and Dispersants

Pour Point Depressants

Antiknock Agents

Antiscrackers Agents

#### 7. CHARACTERISTICS OF LUBRICATING OILS

Viscosity Index of Lubricating Oils

Vapour Pressure

Gravity of Lab Oil

Thermal Properties

Electrical Properties

Properties under High Pressure

Surface Properties

Carbon Residue

Colour of Tube Oils

Neutralisation No

Saponification No of Petroleum Products

Aniline Point of Petroleum Products

Ash content of Petroleum Oils

Precipitation No of Lube Oils

#### 8. CUTTING OILS

Metal Forming and Deforming Lubricant

Cutting Oils

Heat Treatment Oils

Industrial Applications

Types of Cutting Oils

E.P. Additives or Anti Weld

Future Trend of Cutting Oil

Formulations of cutting oils

Hydrogenation Process in Lube Oil Production

Choice of Catalyst

## 9. GREASES

Solid Lubricants

Semi Solid Lubricants

Solid Lubricants

Greases Lubricants

Type of Greases

Calcium Soap

Sodium Soap Greases

Lithium Soap Greases

Aluminium Soap Greases

Mixed Soap Greases

Complex Soap Greases

Non-Soap Greases

Properties of Greases

Grease Applications

Market Position

Fillers

Carbon Black

Asbestos

Mica

Vermiculite

Talc

Various clay or silicate

Metal Powder

Metal Oxide

Manufacturing Process for Grease

Industrial Grease

Manufacturing Process of Greases in General

Fire Hazards in the Manufacture

Processing of aluminium base lubricants and greases

Production of another Barium Base Lubricating Grease

Preparation of Lead Soaps

Preparation of Lead Base Lube Greases

## 10. FORMULATION OF GREASES

Mixed Base Lubricating Greases

Colouring Lubricating Oils

Refining of Lube Oil

Purification of Lube Oil

Reclaiming Used Lube Oil

Non-Bleeding Grease

## 11. LUBRICANTS AND THEIR MANUFACTURE

Composition of Mineral Oil

Refining

Blending

Synthetic Hydrocarbon

Synthetic Non hydrocarbons

Polyalkylene Glycols

## 12. VARIOUS FORMULATIONS OF LUBRICANTS AND GREASES

Textile Lubricant for Spinning Jute, etc.

Application of Lead Base Lubricating Greases

Preparation of Lube Grease from Normal Strontium Soap

Mixture Base Strontium Soap Lubricating Greases

Complex Soap Lubricating Greases

Importance of Soap Salt complexes and their characteristics

### 13. ANALYSIS OF QUALITY ASSESSMENT OF LUBRICATING GREASES AND PETROLEUM PRODUCTS

Lubricating Greases

Analysis

Tests for Melting or Liquefaction

### 14. REFINING OF PETROLEUM PRODUCTS

Chemical Refining

Physical Refining

Solvent Extraction Processes

Dewaxing

Propane Dewaxing

Benzol-Acetone Dewaxing

Benzol Sulphur Dioxide Dewaxing

### 15. MANUFACTURE OF ASPHALTIC BITUMEN

Steam-Refined Asphaltic Bitumen

Blown Asphaltic Bitumen

Pitch-Type Asphaltic Bitumen

### 16. CHEMICALS FROM PETROLEUM

Feedstocks

Chemicals from saturated hydrocarbons

Chemicals from Olefins

Oxidation of Olefins

Chlorination of Ethylene

Chlorination of Olefins

Chlorination of Propylene

Chlorination of Butenes

Chlorhydration of Olefins

Hydrochlorination of Olefins

Sulphonation of Olefins

Oxo Process

Ketones and their derivatives

Aldehydes and their derivatives

Acids and their derivatives

Acetic Acid and Acetic Anhydride

Olefin oxides and their derivatives

Aromatics

Naphthenes and Naphthenic Acids

Carbon Monoxide-hydrogen system

Inorganic Compounds

### 17. NATURAL AND CRACKED GASES

General Properties

Natural Gas

Refinery gas

Liquefied petroleum gas

### 18. PETROLEUM WAXES

Nature of the petroleum waxes

Composition of the petroleum waxes

Production of waxes

The properties of petroleum waxes

Paraffin Waxes

Microcrystalline waxes

Solid state transitions in paraffin waxes  
The effect of crystallinity modifying agents on the properties of paraffin wax  
Utilization of petroleum waxes  
19. BITUMEN  
Emulsions and cutbacks  
Rheological Properties  
Wetting and adhesive properties  
Application  
Industrial applications  
20. PETROLEUM PRODUCTS  
L.P.G. (Liquefied Petroleum Gas)  
Synthesis Gas  
Motor Gasoline  
Aviation Gasoline  
Kerosene  
Jet Fuels  
Diesel Fuels  
Industrial Naphthas  
Heating Oils and Residual Fuel Oils  
Light, Medium and Heavy Fuel Oils  
Petroleum Waxes  
Micro Crystalline Wax from slack wax  
Petroleum Jelly  
Bitumen  
Petroleum Coke  
Carbon Black  
21. ABS RESIN  
Uses and Applications  
Manufacturing Process  
22. ACETALDEHYDE  
23. ACETIC ACID  
24. ACETONE  
25. ACRYLAMIDE MONOMER  
26. ACRYLONITRILE  
27. BENZALDEHYDE  
28. ADIPIC ACID  
29. BENZENE HEXACHLORIDE (B.H.C.)  
30. BENZOIC ACID  
31. BENZYL CHLORIDE  
32. BISPHENOL -A  
33. BUTADIENE  
34. DIETHYL TOLUAMIDE  
35. DIMETHYL FORMAMIDE  
36. ETHYL ACETATE  
37. ETHYLENE OXIDE  
38. FORMALDEHYDE  
39. FORMIC ACID  
40. FUMARIC ACID  
41. ISO PROPYL ALCOHOL  
42. METHYL AMINES  
43. NITROBENZENE  
44. PHTHALIC ANHYDRIDE

45. POLY CARBONATES  
46. POLYOLS  
47. POLYURETHANE FOAM  
48. VINYL CHLORIDE  
49. STRUCTURE OF PETROLEUM  
Molecular Species in Petroleum  
Volatile Fractions  
Nonvolatile Constituents  
Resin Constituents  
Composition  
Structure  
Molecular Weight  
50. SCOPE AND LIMITS OF LUBRICANT TESTING  
Fresh oil testing of industrial oils  
Fresh oil testing of engine oils  
51. LUBRICANT STORAGE  
Lubricant life  
52. COLLOIDAL STABILITY OF LUBRICANTS  
Low-Temperature Stability  
Hot-Temperature Stability  
53. REFINERY WASTES  
Process Wastes  
Desalting  
Distillation  
Thermal Cracking  
Coking Processes  
Fluid Catalytic Cracking  
Hydro cracking and Hydro treating  
Catalytic Reforming  
Alkylation  
Isomerization  
Polymerization  
Deasphalting  
Dewaxing  
Gas Processing  
54. TYPES OF WASTE  
Gases and Lower Boiling Constituents  
Higher Boiling Constituents  
Waste Water  
Spent Caustic  
Solid Waste  
55. WASTE TOXICITY  
56. MANAGEMENT OF REFINERY WASTE  
57. PLANT & MACHINERY PHOTOGRAPHS

## About NIIR

**NIIR PROJECT CONSULTANCY SERVICES (NPCS)** is a reliable name in the industrial world for offering integrated technical consultancy services. NPCS is manned by engineers, planners, specialists, financial experts, economic analysts and design specialists with extensive experience in the

related industries.

Our various services are: Detailed Project Report, Business Plan for Manufacturing Plant, Start-up Ideas, Business Ideas for Entrepreneurs, Start up Business Opportunities, entrepreneurship projects, Successful Business Plan, Industry Trends, Market Research, Manufacturing Process, Machinery, Raw Materials, project report, Cost and Revenue, Pre-feasibility study for Profitable Manufacturing Business, Project Identification, Project Feasibility and Market Study, Identification of Profitable Industrial Project Opportunities, Business Opportunities, Investment Opportunities for Most Profitable Business in India, Manufacturing Business Ideas, Preparation of Project Profile, Pre-Investment and Pre-Feasibility Study, Market Research Study, Preparation of Techno-Economic Feasibility Report, Identification and Section of Plant, Process, Equipment, General Guidance, Startup Help, Technical and Commercial Counseling for setting up new industrial project and Most Profitable Small Scale Business.

NPCS also publishes various process technology, technical, reference, self employment and startup books, directory, business and industry database, bankable detailed project report, market research report on various industries, small scale industry and profit making business. Besides being used by manufacturers, industrialists and entrepreneurs, our publications are also used by professionals including project engineers, information services bureau, consultants and project consultancy firms as one of the input in their research.

Our Detailed Project report aims at providing all the critical data required by any entrepreneur vying to venture into Project. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line.
