Deck Wood Manufacturing Industry. **Wood Plastic Composite Decking** (WPC Decking). **Wood & Plastic Composite used** in Flooring

Introduction

Deck wood is used for both commercial as well as domestic purposes. Deck is nothing but a flat surface that is able to support and withstand weight. Wooden decking is used to build patios, garden landscaping, extend living areas, railings, and much more. Various types of wood, are used to make a wooden decking.

Wooden decking is being used in a number of homes for building patios, landscaping for gardens, or for extended the living area owing to its ease of design versatility and adaptability to varied purposes.

Wooden decking is used to build patios, garden landscaping, extend living areas, railings, and much more. Various types of wood, are used to make a wooden decking. Growing construction industry across the globe, is a major growth driver of the market. The increase in the private non-residential spending and the public non-residential spending, is also expected to contribute in the growth of the market. On the basis of application, the market has been segmented as

residential and non-residential. Residential segment dominates the application segment of the market, and is expected to grow at the highest CAGR during the forecast period.

Rise in demand for wood decking across the residential segment, attributed to changing consumer lifestyle and increased consumer disposable income. Moreover, the growing demand across the construction industry, and increased home improvement & renovation projects, also fuel the demand of the market in residential applications. Non-residential application is expected to contribute significantly in the market growth during the forecast period, mainly due to increase in hospitality, corporate offices, education, and retail sector.

A large portion of the global population at present prefer wooden deck floorings, railings and walls for the aesthetic appeal they offer to the finished building, coupled with the feel the natural wood brings along with it. Moreover, wooden decking has turned highly popular among consumers looking for decks that have longevity.

Moreover, rapid urbanization paired with massive investments in infrastructural activities, particularly in the emerging economies in the Asia Pacific region are anticipated to work in the favor of the wooden decking market. Furthermore, increasing awareness about wooden decking among the consumers is slated to bring about a number of lucrative opportunities for the wooden decking market in the coming years.

The global wooden decking market is segmented on the basis of type, application and end-user. Global Wood Decking market size will increase to Million US\$ by 2025, from Million US\$ in 2018, at a CAGR of during the forecast period. In this study, 2018 has been considered as the base year and 2019 to 2025 as the forecast period to estimate the market size for Wood Decking.

Type-based segments in the market include tropical hardwood, redwood, cedar wood, pressure-treated wood, and others. Among these, the pressure-treated wood holds the largest market share, as it is a pressure-treated wood which is highly durable and long lasting. This wood is able to withstand extreme moist as well as icy conditions. When it is treated with waterborne preservatives, the pressure-treated wood products turn highly resistant to internal decaying, insects and rots, thereby increasing its preference among customers. Moreover, the product is extensively adopted in residential as well as infrastructural buildings.

Asia Pacific is expected to grow at the highest CAGR during the forecast period. Rapidly growing construction activities in the region, are driving the demand of the market. China, Japan, India, and Singapore are the major markets in Asia Pacific region. Growing residential and non-residential construction activities in the region, are driving the growth of the market. Additionally, growing awareness about wooden decking, among consumers, is also expected to provide opportunities for market growth. In rest of the world, Middle East region is expected to contribute, significantly, during the forecast period, mainly due to changing lifestyle and high growth in construction sector.

It is projected to witness significant growth in the next few years with the increasing demand for new constructions all over the world due to rapid urbanization and industrialization. Large-scale investments in industrial and infrastructure sectors, rising construction activities in emerging economies, and development of innovative products in the decking market are some of the factors driving the growth of the Wooden Decking Market.

The major players in the wooden decking market include UPM-Kymmene Corporation (Finland), Weyerhaeuser Company (U.S.), West Fraser Timber Co. Ltd. (Canada), Universal Forest Products, Inc. (U.S.), Metsä Group (Finland), Setra Group (Sweden), James Latham plc (U.K.), Cox Industries Inc. (U.S.), Humboldt Redwood Company and Mendocino Redwood Company (U.S.), and Vetedy Group (U.S.).

Major Queries/Questions Answered in the Report?

- 1. What is Deck Wood Manufacturing industry?
- 2. How has the Deck Wood Manufacturing industry performed so far and how will it perform in the coming years ?
- 3. What is the Project Feasibility of Deck Wood Manufacturing Plant ?
- 4. What are the requirements of Working Capital for setting up Deck Wood Manufacturing plant ?

5. What is the structure of the Deck Wood Manufacturing Business and who are the key/major players ?

- 6. What is the total project cost for setting up Deck Wood Manufacturing Business?
- 7. What are the operating costs for setting up Deck Wood Manufacturing plant ?
- 8. What are the machinery and equipment requirements for setting up Deck Wood Manufacturing plant ?

9. Who are the Suppliers and Manufacturers of Plant & Machinery for setting up Deck Wood Manufacturing plant ?

- 10. What are the requirements of raw material for setting up Deck Wood Manufacturing plant ?
- 11. Who are the Suppliers and Manufacturers of Raw materials for setting up Deck Wood Manufacturing Business?

12. What is the Manufacturing Process of Deck Wood?

13. What is the total size of land required for setting up Deck Wood Manufacturing plant ?

14. What will be the income and expenditures for Deck Wood Manufacturing Business?

15. What are the Projected Balance Sheets of Deck Wood Manufacturing plant ?

16. What are the requirement of utilities and overheads for setting up Deck Wood Manufacturing plant?

17. What is the Built up Area Requirement and cost for setting up Deck Wood Manufacturing Business?

18. What are the Personnel (Manpower) Requirements for setting up Deck Wood Manufacturing Business?

19. What are Statistics of Import & Export for Deck Wood?

20. What is the time required to break-even of Deck Wood Manufacturing Business?

21.What is the Break-Even Analysis of Deck Wood Manufacturing plant?

22.What are the Project financials of Deck Wood Manufacturing Business?

23. What are the Profitability Ratios of Deck Wood Manufacturing Project?

24. What is the Sensitivity Analysis-Price/Volume of Deck Wood Manufacturing plant?

- 25. What are the Projected Pay-Back Period and IRR of Deck Wood Manufacturing plant?
- 26. What is the Process Flow Sheet Diagram of Deck Wood Manufacturing project?

27. What are the Market Opportunities for setting up Deck Wood Manufacturing plant?

28. What is the Market Study and Assessment for setting up Deck Wood Manufacturing Business?

29. What is the Plant Layout for setting up Deck Wood Manufacturing Business?

Reasons for Buying our Report:

• This report helps you to identify a profitable project for investing or diversifying into by throwing light to crucial areas like industry size, market potential of the product and reasons for investing in the product

- This report provides vital information on the product like it's characteristics and segmentation
- This report helps you market and place the product correctly by

identifying the target customer group of the product

• This report helps you understand the viability of the project by disclosing details like machinery required, project costs and snapshot of other project financials

- The report provides a glimpse of government regulations applicable on the industry
- The report provides forecasts of key parameters which helps to anticipate the industry performance and make sound business decisions

Our Approach:

- Our research reports broadly cover Indian markets, present analysis, outlook and forecast for a period of five years.
- The market forecasts are developed on the basis of secondary research and are cross-validated through interactions with the industry players
- We use reliable sources of information and databases. And information from such sources is processed by us and included in the report

Scope of the Report

The report titled "Market Survey cum Detailed Techno Economic Feasibility Report on Deck Wood." provides an insight into Deck Wood market in India with focus on uses and applications, Manufacturing Process, Process Flow Sheets, Plant Layout and **Project Financials of Deck Wood project.** The report assesses the market sizing and growth of the Indian Deck Wood Industry. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of on a suitable product/line. And before zeroing in diversifying/venturing into any product, they wish to study the following aspects of the identified product:

- Good Present/Future Demand
- Export-Import Market Potential
- Raw Material & Manpower Availability
- Project Costs and Payback Period

We at NPCS, through our reliable expertise in the project consultancy and market research field, have demystified the situation by putting forward the emerging business opportunity in the Deck Wood sector in India along with its business prospects. Through this report we have identified Deck Wood project as a lucrative investment avenue.

Detailed Project Reports

NPCS is manned by engineers, planners, specialists, financial experts, economic analysts and design specialists with extensive experience in the related industries.

Our Market Survey cum Detailed Techno Economic Feasibility Report provides an insight of market in India. The report assesses the market sizing and growth of the Industry. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line.

And before diversifying/venturing into any product, they wish to study the following aspects of the identified product:

- Good Present/Future Demand
- Export-Import Market Potential
- Raw Material & Manpower Availability
- Project Costs and Payback Period

The detailed project report covers all aspect of business, from analyzing the market, confirming availability of various necessities such as Manufacturing Plant, Detailed Project Report, Profile, Business Plan, Industry Trends, Market Research, Survey, Manufacturing Process, Machinery, Raw Materials, Feasibility Study, Investment Opportunities, Cost and Revenue, Plant Economics, Production Schedule,

Working Capital Requirement, uses and applications, Plant Layout, Project Financials, Process Flow Sheet, Cost of Project, Projected Balance Sheets, Profitability Ratios, Break Even Analysis. The DPR (Detailed Project Report) is formulated by highly accomplished and experienced consultants and the market research and analysis are supported by a panel of experts and digitalized data bank.

We at NPCS, through our reliable expertise in the project consultancy and market research field, have demystified the situation by putting forward the emerging business opportunity in India along with its business prospects.....<u>Read more</u>

Who are we?

- One of the leading reliable names in industrial world for providing the most comprehensive technical consulting services
- We adopt a systematic approach to provide the strong fundamental support needed for the effective delivery of services to our Clients' in India & abroad

We at NPCS want to grow with you by providing solutions scale to suit your new operations and help you reduce risk and give a high return on application investments. We have successfully achieved top-notch quality standards with a high level of customer appreciation resulting in long lasting relation and large amount of referral work through technological breakthrough and innovative concepts. A large number of our Indian, Overseas and NRI Clients have appreciated our expertise for excellence which speaks volumes about our commitment and dedication to every client's success.

We bring deep, functional expertise, but are known for our holistic perspective: we capture value across boundaries and between the silos of any organization. We have proven a multiplier effect from optimizing the sum of the parts, not just the individual pieces. We actively encourage a culture of innovation, which facilitates the development of new technologies and ensures a high quality product.

What do we offer?

- Project Identification
- Detailed Project Reports/Pre-feasibility Reports
- Market Research Reports
- Business Plan
- Technology Books and Directory
- Industry Trend
- Databases on CD-ROM
- Laboratory Testing Services
- Turnkey Project Consultancy/Solutions
- Entrepreneur India (An Industrial Monthly Journal)

How are we different ?

- We have two decades long experience in project consultancy and market research field
- We empower our customers with the prerequisite know-how to take sound business decisions
- We help catalyze business growth by providing distinctive and profound market analysis
- We serve a wide array of customers, from individual entrepreneurs to Corporations and Foreign Investors
- We use authentic & reliable sources to ensure business precision

Our Approach

Requirement collection

Thorough analysis of the project

Economic feasibility study of the Project

Market potential survey/research

Report Compilation
