Business Ideas in Paper

Packaging Industry

Introduction

Paper cores are long tubes used for many applications that range from paper towel rolls to cable reels, and many things in between. They are also called paper tubes, spiral-wound paper cores, and fiberboard cores.

Paper cores are extensively used for shipping, storing, spinning industry and are used for closures of plastic, wooden, and metal.

Paper Cores are extensively used for:-

- **Carpet yarn, coir mat, denim, and jute winding.**
- **Cores used in packing submersible pumps & a host of engineering goods.**
- **Cores with polished surface used in polyester film & audio tapes.**
- **Cores used in newsprint, paper & board industry**
- **Core used in self-adhesive tapes & flexible film winding.**

Paper cores market is expected to grow due to increasing demand of the paper cores by various industry such as textile, paper mills, adhesive tapes, wire etc. during the forecast period. Paper cores are used for packaging of material as well as winding of products for storage and distribution. Depending on the intended use paper cores are made by different materials such as less durable cardboard or paper used for manufacturing paper cores for toilet paper, winding of films or paper towels, whereas heavy duty thick cardboard used for electrical, textile or fabric industry.

Depend on the application type paper cores are available in different diameter, length and thickness. Global paper cores market totally depends on packaging industry. It gains popularity in packaging of beverages such as alcoholic as well as non-alcoholic rather than it is used for winding and rewinding of products such as textile, fax rolls, toilet tissue paper, newsprint, kraft paper, polyester films, metallized films etc. If the demand of the above listed products increase it directly affect the global paper cores market positively.

Growth in demand for the global paper cores market is expected to grow strongly for several reasons. One of the significant factor which contribute in the growth of the paper cores market is increasing demand of the product by various industry such as textile, adhesive tapes, and wires etc. Moreover, paper cores are fully recyclable, reusable, and environmental friendly which also contributes in the significant growth of the global paper cores market. Paper cores has a huge potential of growth in the packaging market for providing the compact packaging of beverages including alcoholic and non-alcoholic.

On the basis of end use, global paper cores market is segmented into:

- **Beverages packaging**
- **Paper Industry**
- **Adhesive Tapes**
- **Electronic**
- **Textile**
- **Construction**
- **Foil Industry**
- **BOPP**
- **Aluminium**
- **Polyester**

Reasons for Buying our Report:

- **This report helps you to identify a profitable project for investing or diversifying into by throwing light to crucial areas like industry size, market potential of the product and reasons for investing in the product**
- **This report provides vital information on the product like it's characteristics and segmentation**
- **This report helps you market and place the product correctly by identifying the target customer group of the product**

- **This report helps you understand the viability of the project by disclosing details like machinery required, project costs and snapshot of other project financials**
- **The report provides a glimpse of government regulations applicable on the industry**
- **The report provides forecasts of key parameters which helps to anticipate the industry performance and make sound business decisions**

Our Approach:

- **Our research reports broadly cover Indian markets, present analysis, outlook and forecast for a period of five years.**
- **The market forecasts are developed on the basis of secondary research and are cross-validated through interactions with the industry players**
- **We use reliable sources of information and databases. And information from such sources is processed by us and included in the report**

Scope of the Report

The report titled “Market Survey cum Detailed Techno Economic Feasibility Report on Paper Core.” provides an insight into Paper Core market in India with focus on uses and applications, Manufacturing Process, Process Flow Sheets, Plant Layout and Project Financials of Paper Core project. The report assesses the market sizing and growth of the Indian Paper Core Industry. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line. And before diversifying/venturing into any product, they wish to study the following aspects of the identified product:

- **Good Present/Future Demand**
- **Export-Import Market Potential**
- **Raw Material & Manpower Availability**
- **Project Costs and Payback Period**

We at NPCS, through our reliable expertise in the project consultancy and market research field, have demystified the situation by putting forward the emerging business opportunity in the Paper Core sector in India along with its business prospects. Through this report we have identified Paper Core project as a lucrative investment avenue.
