

# **Latex Rubber Thread Production Business.**

## **Profitable Business Ideas in Rubber Industry**

# Introduction

**Prime use of the Rubber Thread is in hosiery applications. Latex Rubber threads are primarily used to manufacture various types of elastic tapes mainly for foundation garments (briefs, trunks, panties, brassieres), shorts, pants, skirts, sportswear, sock tops etc. They are also used in elastic tapes for diapers, shoe uppers, headbands and wristband for sportsmen and travel goods.**

**Rubber threads are also used to make fishing baits and in Pole fishing. Colored rubber threads are used for these applications. Colored rubber threads also used for making toys like kibosh balls and doll hair etc. Medical nettings, braids, laces, cords, catheter manufacturing and webbing for furniture are other applications of rubber thread.**

**Rubber latex thread, sometimes called rubber thread, is obtained from the rubber tree, are widely used in daily life product.**

**They are extremely valuable, because each rubber tree produces only 30 ml of latex juice per day. Latex has wide range of uses, for example elastic fabric used in everyday life, such as various elastic, tight underwear, swimwear, socks, gloves, mouth, belts, lingerie straps and so on.**

## Use

- ❖ Prime use of the Rubber Thread is in hosiery applications. Latex Rubber threads are primarily used to manufacture various types of elastic tapes mainly for foundation garments (briefs, trunks, panties, brassieres), shorts, pants, skirts, sportswear, sock tops etc.
- ❖ The main uses of rubber thread are in combination with textiles. The thread is normally covered with textile fibers of various types in special covering machines.

- ❖ **Rubber threads are also used to make fishing baits and in Pole fishing. Polyester Elastic Thread are used for Shoe Cover**
- ❖ **Rubber elastic bandage is made of the finest quality textile fabrics, reinforced with natural rubber thread. Used for elastic band, sofa elastic webbing, headwear, socks, gloves**
- ❖ **The sap is used to make products such as balloons, gloves and pacifiers**

## **Market outlook**

**The Indian rubber industry has also been gaining global acceptance. India today is looked upon as world's largest producer and third largest consumer of natural rubber. Likewise, large scale production of automobiles in India also led to the further growth of this sector. The global market for industrial rubber products is projected to increase 5.8 percent per year to \$139.8 billion, accelerating from the growth rate .The Rubber Latex Thread in global market, especially in North America, Europe and Asia-Pacific, the rubber latex thread industry concentration is relatively high; the giants are distributed in Malaysia, India, Thailand and China, and high-end products mainly from Malaysia and Thailand. In 2014.**

**India forms a booming market with a huge base of 720 million consumers across 627,000 villages. India is the fourth largest tire market in the world. At 7.64 % growth, India is the fastest growing passenger car market. Various agencies have projected a GDP growth of 8-9% for India till 2020. The increase in GDP will be driven by the growth in industrial sector. Global Rubber Latex Thread market size will increase to 25 Million US\$ by 2025, from 15 Million US\$ in 2017, at a CAGR of 25% during the forecast period. Rubber Latex Thread Market is expected to grow at a significant CAGR in the upcoming years as the scope, product types and its applications are increasing across the globe. Rubber Latex Thread is one of the products obtained by processing of rubber. It is produced by extruding compounded latex through capillaries into a bath of coagulant, and the coagulated wet filament is then washed, dried and vulcanized to produce an elastic thread. From the rubber tree the sap comes out.**

# Reasons for Buying our Report:

- **This report helps you to identify a profitable project for investing or diversifying into by throwing light to crucial areas like industry size, market potential of the product and reasons for investing in the product**
- **This report provides vital information on the product like it's characteristics and segmentation**
- **This report helps you market and place the product correctly by identifying the target customer group of the product**

- **This report helps you understand the viability of the project by disclosing details like machinery required, project costs and snapshot of other project financials**
- **The report provides a glimpse of government regulations applicable on the industry**
- **The report provides forecasts of key parameters which helps to anticipate the industry performance and make sound business decisions**

# Our Approach:

- **Our research reports broadly cover Indian markets, present analysis, outlook and forecast for a period of five years.**
- **The market forecasts are developed on the basis of secondary research and are cross-validated through interactions with the industry players**
- **We use reliable sources of information and databases. And information from such sources is processed by us and included in the report**

# **Scope of the Report**

**The report titled “Market Survey cum Detailed Techno Economic Feasibility Report on Latex Rubber Threads.” provides an insight into Latex Rubber Threads market in India with focus on uses and applications, Manufacturing Process, Process Flow Sheets, Plant Layout and Project Financials of Latex Rubber Threads project. The report assesses the market sizing and growth of the Indian Latex Rubber Threads Industry. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line. And before diversifying/venturing into any product, they wish to study the following aspects of the identified product:**

- **Good Present/Future Demand**
- **Export-Import Market Potential**
- **Raw Material & Manpower Availability**
- **Project Costs and Payback Period**

**We at NPCS, through our reliable expertise in the project consultancy and market research field, have demystified the situation by putting forward the emerging business opportunity in the Latex Rubber Threads sector in India along with its business prospects. Through this report we have identified Latex Rubber Threads project as a lucrative investment avenue.**
