

Most Successful  
Small Business Ideas  
with Investment of  
1.50 - 2 Crores (Plant  
and Machinery).  
**Selected Project  
Profiles for  
Entrepreneurs,  
Stratus**

## Introduction

Micro, Small and Medium Enterprises (MSMEs) sector has emerged as a highly vibrant and dynamic sector of the Indian economy and is widely acclaimed as engine of economic growth, particularly in the context of Make in India initiative of the Government of India.

MSMEs play a noteworthy role in economic and social development, thereby providing flip to entrepreneurship, as they have inherent characteristics of being innovative and responsive to changing market dynamics. Being complementary to large industries this sector contributes hugely to the socioeconomic development of the country.

MSMEs not only play a crucial role in providing large employment opportunities at comparatively lower capital cost but also encourage entrepreneurial activities in rural and backward areas.

Small business entrepreneurs have many opportunities that they can explore successfully; all they need is a great small business idea. In the ever-increasing startup ecosystem of today, everyone dreams of starting their startup and becoming a millionaire or a billionaire. However, most of the people remain confused between which business to start for maximum profit and which one has the least probability of failure and the main reason for this is the failure rate of startups.

**Starting your own business is everyone's dream.**

**So, here are list of best startup ideas that can be started:**

## PET Recycling

Polyethylene terephthalate (PET) is a highly recyclable plastic resin and a form of polyester. PET also is inexpensive, lightweight, resalable, shatter-resistant, and recyclable. Recycled polyethylene terephthalate is known as RPET, and it is the most widely recycled plastic in the world.

Global Plastic Recycling Market is cross USD 50.0 Billion by 2023, growing at a CAGR of over 5.0% during the forecast period. Rising awareness about the pollution caused by plastics and the energy saving benefits in the manufacturing of recycled plastics over virgin plastics are the major growth drivers of the global market for plastic recycling.

## Warehouse

A warehouse is a place used for the storage or accumulation of goods. It may also be defined as an establishment that assumes responsibility for the safe custody of goods. Warehouses enable the businessmen to carry on production throughout the year and to sell their products, whenever there is adequate demand.

The global warehousing and storage market is currently exhibiting healthy growth. Looking forward, the demand for warehousing and storage is expected to remain strong in the coming years. The key application sectors of warehousing such as manufacturing, retail, healthcare, construction, automotive, technology, etc. are expected to exhibit strong growth in the coming years. Moreover, strong demand from the e-commerce sector is also expected.

## **NPK Complex Organic Fertilizer Plant**

NPK fertilizer is a complex fertilizer comprised primarily of the three primary nutrients required for healthy plant growth about half of the global population is alive as a result of the increased food production provided by the use of mineral fertilizers.

The complex fertilizers market was valued at USD 44.03 Billion in 2016; it is grow at a CAGR of 6.5% from 2017, to reach a value of USD 54.32 Billion by 2022. The size of the overall complex fertilizers market was derived using forecasting techniques based on the consumption of fertilizers and trade trends in various regions.

## Adhesive Based on Epoxy Resin (2 Pack)

The adhesive industry has seen significant changes in recent years. The type and number of these changes have been astounding. They include new substrate materials, regulatory burdens, acquisitions and mergers, new raw materials, new application and curing processes, and a host of volatile technical, commercial, and political issues.

The market for epoxy adhesives is expected to register a CAGR of 5.72 % during the forecast period (2019-2024). The automotive industry and increasing demand for miniaturized and lightweight electronics.

## Spices in Pouch Packing

Spices are non-leafy parts (e.g. bud, fruit, seed, bark, rhizome, and bulb) of plants used as a flavoring or seasoning, although many can also be used as an herbal medicine. India is the largest producer, consumer and exporter of spices and spice products in the world and produces more than 50 spices. India is also a big exporter of Chili, turmeric, cumin, pepper and many other spices.

The pouch packaging market was valued at USD 17.23 billion in 2018 and is expected to reach a value of USD 21.64 billion by 2024 at a CAGR of 4.66%, over the forecast period 2019- 2024. The snacking trend is witnessing a rise including usage of single-serve, as well as re-usable packaging solutions. Here, the pouch packaging serves the demand of the consumer.

## Aluminium Cans for Brewery

Aluminium beverage cans are every day commodities that people come across on a regular basis, whether it's while they are grocery shopping, taking their lunch break, or pondering in front of a vending machine. The aluminium beverage can is now the popular choice for carbonated and still soft drinks, mineral waters, beers and lagers. The good thermal properties of aluminium mean that the drinks can is quickly chilled.

Increasing consumption of beverages coupled with the rising need for convenience is driving the market for beverage packaging in India. The Indian beverage packaging market is exhibiting robust growth with sustainable packaging being the need of the hour. Beverages accounted for 21% of the total consumer packaging market in 2014. Demand for consumer packaging from the beverage sector is expected to grow marginally ahead of other user sectors at around 12% till 2017. The beverage cans market size was valued at USD 39.19 billion in 2015 and is expected to witness significant growth over the forecast period primarily owing to superior cooling properties and storage space reduction by using advanced materials in beverage cans manufacturing.

The industry is expected to witness high growth owing to increasing consumption of alcoholic beverages such as beer and cider which are required to cool at a specific temperature for enhanced taste.

The packaging industry in India is estimated to reach \$73 billion by 2020, from \$32 billion in 2015, says a study by Federation of Indian Chambers of Commerce & Industry (Ficci) and Tata Strategic Management Group. The country's packaging industry is set to register 18 per cent growth, year-on-year with sub-sectors like flexible packaging and rigid packaging to grow annually at the rate of 25 per cent and 15 per cent respectively.

## Hollow Glassware

A glass bottle is a bottle created from glass. Glass bottles can vary in size considerably, but are most commonly found in sizes ranging between about 200 milliliters and 1.5 liters. Common uses for glass bottles include food condiments, soda, liquor, cosmetics, pickling and preservatives. These types of bottles are utilitarian and serve a purpose in commercial industries.

The global Hollow Glass Microspheres Market is grow at a CAGR of 7.5% during the forecast period 2018 – 2023. The global hollow glass microspheres market and is undergoing high growth due to the increased demand for efficiency in many end-user industries. Product innovation in terms of quality and application development is another driving factor for the growth of this market in North America. The U.S. and Canada are expected to lead the hollow glass microspheres market in the North American region; the U.S. is the most dominant market and is expected to account for a significant market. The market in North America is expected to witness significant growth due to the increase in demand for advanced materials in existing and emerging .

# Major Queries/Questions Answered in Our Report?

- 1. How has the industry performed so far and how will it perform in the coming years?**
- 2. What is the Project Feasibility of the Plant?**
- 3. What are the requirements of Working Capital for setting up the plant?**
- 4. What is the structure of the industry and who are the key/major players?**

5. **What is the total project cost for setting up the plant?**
6. **What are the operating costs for setting up the plant?**
7. **What are the machinery and equipment requirements for setting up the plant?**
8. **Who are the Suppliers and Manufacturers of Plant & Machinery for setting up the plant?**
9. **What are the requirements of raw material for setting up the plant?**

- 10. Who are the Suppliers and Manufacturers of Raw materials for setting up the plant?**
- 11. What is the Manufacturing Process of the plant?**
- 12. What is the total size of land required for setting up the plant?**
- 13. What will be the income and expenditures for the plant?**
- 14. What are the Projected Balance Sheets of the plant?**

- 15. What are the requirement of utilities and overheads for setting up the plant?**
- 16. What is the Built up Area Requirement and cost for setting up the plant?**
- 17. What are the Personnel (Manpower) Requirements for setting up the plant?**
- 18. What are Statistics of Import & Export for the Industry?**
- 19. What is the time required to break-even?**

- 20. What is the Break-Even Analysis of the plant?**
- 21. What are the Project financials of the plant?**
- 22. What are the Profitability Ratios of the plant?**
- 23. What is the Sensitivity Analysis-Price/Volume of the plant?**
- 24. What are the Projected Pay-Back Period and IRR of the plant?**
- 25. What is the Process Flow Sheet Diagram of the plant?**
- 26. What are the Market Opportunities for setting up the plant?**
- 27. What is the Market Study and Assessment for setting up the plant?**
- 28. What is the Plant Layout for setting up the plant?**

## **Reasons for Buying Our Report:**

- **The report helps you to identify a profitable project for investing or diversifying into by throwing light to crucial areas like industry size, market potential of the product and reasons for investing in the product**
- **The report provides vital information on the product like it's characteristics and segmentation**
- **The report helps you market and place the product correctly by identifying the target customer group of the product**

- **The report helps you understand the viability of the project by disclosing details like machinery required, project costs and snapshot of other project financials**
- **The report provides a glimpse of government regulations applicable on the industry**
- **The report provides forecasts of key parameters which helps to anticipate the industry performance and make sound business decisions**

## **Our Approach:**

- Our research reports broadly cover Indian markets, present analysis, outlook and forecast for a period of five years.**
- The market forecasts are developed on the basis of secondary research and are cross-validated through interactions with the industry players**
- We use reliable sources of information and databases. And information from such sources is processed by us and included in the report**

# Free Instant Online Project Identification and Selection Service

**Our Team has simplified the process for you by providing a "Free Instant Online Project Identification & Selection" search facility to identify projects based on multiple search parameters related to project costs namely: Plant & Machinery Cost, Total Capital Investment, Cost of the project, Rate of Return% (ROR) and Break Even Point % (BEP). You can sort the projects on the basis of mentioned pointers and identify a suitable project matching your investment requisites.....[Read more](#)**

## **Download Complete List of Project Reports:**

### **▪ Detailed Project Reports**

**NPCS is manned by engineers, planners, specialists, financial experts, economic analysts and design specialists with extensive experience in the related industries.**

**Our Market Survey cum Detailed Techno Economic Feasibility Report provides an insight of market in India. The report assesses the market sizing and growth of the Industry. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line.**

**And before diversifying/venturing into any product, they wish to study the following aspects of the identified product:**

- **Good Present/Future Demand**
- **Export-Import Market Potential**
- **Raw Material & Manpower Availability**
- **Project Costs and Payback Period**

**The detailed project report covers all aspect of business, from analyzing the market, confirming availability of various necessities such as Manufacturing Plant, Detailed Project Report, Profile, Business Plan, Industry Trends, Market Research, Survey, Manufacturing Process, Machinery, Raw Materials, Feasibility Study, Investment Opportunities, Cost and Revenue, Plant Economics, Production Schedule,**

**Working Capital Requirement, uses and applications, Plant Layout, Project Financials, Process Flow Sheet, Cost of Project, Projected Balance Sheets, Profitability Ratios, Break Even Analysis. The DPR (Detailed Project Report) is formulated by highly accomplished and experienced consultants and the market research and analysis are supported by a panel of experts and digitalized data bank.**

**We at NPCS, through our reliable expertise in the project consultancy and market research field, have demystified the situation by putting forward the emerging business opportunity in India along with its business prospects.....[Read more](http://www.entrepreneurindia.co)**

# **Niir PROJECT CONSULTANCY SERVICES**

**An ISO 9001:2015 Company**

## Who are We?

- *One of the leading reliable names in industrial world for providing the most comprehensive technical consulting services*
- *We adopt a systematic approach to provide the strong fundamental support needed for the effective delivery of services to our Clients' in India & abroad*

## What do We Offer?

- *Project Identification*
- *Detailed Project Reports/Pre-feasibility Reports*
- *Business Plan*
- *Market Research Reports*
- *Technology Books and Directory*
- *Industry Trend*
- *Databases on CD-ROM*
- *Laboratory Testing Services*
- *Turnkey Project Consultancy/Solutions*
- *Entrepreneur India (An Industrial Monthly Journal)*

## **How are We Different ?**

- *We have two decades long experience in project consultancy and market research field*
- *We empower our customers with the prerequisite know-how to take sound business decisions*
- *We help catalyze business growth by providing distinctive and profound market analysis*
- *We serve a wide array of customers , from individual entrepreneurs to Corporations and Foreign Investors*
- *We use authentic & reliable sources to ensure business precision*

# Our Approach

**Requirement collection**

**Thorough analysis of the project**

**Economic feasibility study of the Project**

**Market potential survey/research**

**Report Compilation**
