Introduction

Camphor (Cinnamomum camphor) is a terrene (organic compound) that's commonly used in creams, ointments, and lotions. Camphor oil is the oil extracted from the wood of camphor trees and processed by steam distillation. It can be used topically to relieve pain, irritation, and itching

Camphor is a powder that originally came from the bark and wood of the camphor tree. Today, most camphor is synthetic. It's in some products that are applied to the skin, including FDA-approved treatments. It's a common ingredient in remedies applied to the skin for cough and skin irritation.

Camphor used to be made by distilling the bark and wood of the camphor tree. Today, camphor is usually manufactured from turpentine oil. ... People sometimes apply camphor to the skin to relieve pain and reduce itching. Some people inhale camphor to reduce the urge to cough. Three type of camphor brown, yellow, and white camphor oil.

Uses

Camphor (topical) suggested uses include treating pain, warts, cold sores, hemorrhoids, osteoarthritis, anti-itch, to increase local blood flow, and as a counterirritant. Camphor is an FDA-approved topical antitussive (anti-cough). Camphor is an FDA-approved topical analgesic and anesthetic used to relieve pain.

Camphor for skin, Relieves pain, Heals burns, Treats arthritis, Treats toenail fungus, Relieves congestion and coughing, Antispasmodic, hair loss, acne, warts, earaches, cold sores, hemorrhoids, heart disease symptoms, poor blood circulation, flatulence, anxiety, depression, muscle spasms, low libido etc.

Market Outlook

Growing demand from the pharmaceutical industry is therefore the major factor driving the growth of camphor tablets in the market. High consumption of camphor tablets for religious rituals in India is another factor boosting market growth for camphor tablets. Camphor is believed to be holy and sacred stuff which is offered to god for thanks giving. Hence, camphor tablets have huge scope for growth in Asia Pacific during the forecast period. Camphor tablets are also used in the agriculture to keep away insects and moths. It is used as repellent in agriculture and even for household activities to keep away reptiles and insects. Therefore steady demand is observed for camphor tablets from the agriculture industry. Camphor tablets are also used in skin care products as it helps reduce acne and pimples. Therefore,

chemical industry makes use of camphor in many skin care products and hair care products due to the beneficial properties of camphor. Europe consumes camphor for preparation of almost all sweet dishes. Camphor is the essential ingredient in the cookbooks of Arabians. In India, camphor is used as an essence in some of the sweet dishes. Hence, food is also expected to fuel demand for growth of camphor tablets during the forecast period from 2016 to 2022.

Camphor Tablets market was valued at US\$ 93.9 Mn in 2016 and is expected to reach US\$ 145.6 Mn by 2022, growing at a CAGR of 7.6% during the forecast period 2016-2022.

Global Camphor Tablets Market 2015-2022

Global Camphor Tablets Market, 2015 – 2022, (Kilo Tons) (US\$ Mn)

In addition to its natural origin, camphor can also be produced synthetically from turpentine oil. Globally, rising demand for camphor ointments used for treating chest congestion, growth in food industry owing to growing population, and increasing demand from the pharmaceutical industry are the prime growth drivers of camphor market. In addition, on-going research and development activities to develop the new application scope for camphor and rising population in emerging economies such as China, India and others will create new opportunities for camphor market. However, camphor being price sensitive market and excessive consumption being hazardous to human health are the key restraints for camphor market. With a near 48% share of investment. In the western region, Gujarat makes the largest contribution to the chemical industry's production activity.

The Indian market for petrochemicals will increase four times in the next ten years. Representing a growth rate of 22%.The specialty camphor industry in India is expected to grow at a growth rate of 15%, almost double the growth of the global specialty camphor industry. With India being an emerging economy with high growth rates and a strong domestic demand in India will be one of the most booming industries in the coming years.

Reasons for Buying our Report:

- **This report helps you to identify a profitable project for investing or diversifying into by throwing light to crucial areas like industry size, market potential of the product and reasons for investing in the product**
- **This report provides vital information on the product like it's characteristics and segmentation**
- **This report helps you market and place the product correctly by identifying the target customer group of the product**

- **This report helps you understand the viability of the project by disclosing details like machinery required, project costs and snapshot of other project financials**
- **The report provides a glimpse of government regulations applicable on the industry**
- **The report provides forecasts of key parameters which helps to anticipate the industry performance and make sound business decisions**

Our Approach:

- **Our research reports broadly cover Indian markets, present analysis, outlook and forecast for a period of five years.**
- **The market forecasts are developed on the basis of secondary research and are cross-validated through interactions with the industry players**
- **We use reliable sources of information and databases. And information from such sources is processed by us and included in the report**

Scope of the Report

The report titled “Market Survey cum Detailed Techno Economic Feasibility Report on Camphor (powder and tablets) .” provides an insight into Camphor (powder and tablets) market in India with focus on uses and applications, Manufacturing Process, Process Flow Sheets, Plant Layout and Project Financials of Camphor (powder and tablets) project. The report assesses the market sizing and growth of the Indian Camphor (powder and tablets) Industry. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line. And before diversifying/venturing into any product, they wish to study the following aspects of the identified product:

- **Good Present/Future Demand**
- **Export-Import Market Potential**
- **Raw Material & Manpower Availability**
- **Project Costs and Payback Period**

We at NPCS, through our reliable expertise in the project consultancy and market research field, have demystified the situation by putting forward the emerging business opportunity in the Camphor (powder and tablets) sector in India along with its business prospects. Through this report we have identified Camphor (powder and tablets) project as a lucrative investment avenue.
