

# The Complete Book on Jute & Coir Products (with Cultivation & Processing) - 2nd Revised Edition

**Author:** P. K. Chattopadhyay

**Format:** Paperback

**ISBN:** 9788194737988

**Code:** NI287

**Pages:** 464

**Price:** Rs. 1,575.00 US\$ 42.56

**Publisher:** NIIR PROJECT CONSULTANCY SERVICES

Usually ships within 5 days

The Complete Book on Jute & Coir Products (with Cultivation & Processing) - 2nd Revised Edition

Jute is a natural fiber popularly known as the golden fiber. It has gained its name as olden fibre due to its shiny brown colour. The fibre is affordable to all the consumers and is completely biodegradable. It is one of the cheapest and the strongest of all natural fibers and considered as fiber of the future. Jute is second only to cotton in world's production of textile fibers. Jute fibers are composed primarily of the plant materials cellulose and lignin. Jute is the name of the plant or fiber used to make burlap, hessian or gunny cloth. Coir is a versatile natural fibre extracted from mesocarp tissue, or husk of the coconut fruit. Generally fibre is of golden color when cleaned after removing from coconut husk; and hence the name "The Golden Fibre".

Both coir and jute are natural fibers and come from sustainable products. Coir comes from the husks of coconuts that were typically discarded. It is harvested by hand and soaked in water to soften the fibers, which are then woven together. Jute fiber comes from the stem of the jute plant and is the second most important vegetable fiber, after cotton, when it comes to production and use.

Global jute market on the basis of type, covering jute sack bags and jute shopping bags. Currently, jute sack bags dominate the market, accounting for the majority of the sales volume. Growing environmental awareness among the masses has also created an inclination toward natural and biodegradable products, like jute bags, over plastic bags. This, along with many government initiatives, is bolstering the jute industry. For instance, the Government of India has mandated the packaging of food grain and sugar in jute bags. Some of the key players operative in the market include Aarbur, Ashoka Exports, Hitaishi-KK, Howrah Mills Co. Ltd., Shree Jee International India Ltd. and Gloster Limited.

The growing demand for eco-friendly products in the market is where coir should fast step in. It is a lightweight, soilless growing medium made from the fibers which are completely renewable and considered an excellent choice for environmental sustainability. The efforts support the market expansion for coir and the Asia Pacific hopes to further increase production by streamlining the fiber collection process to meet demand.

The Major contents of the Book are BIS Specifications, Jute: an eco-friendly opportunity for a sustainable Future, Green Marketing Of Jute and Jute Products, The Jute And Jute Textiles Industry, Jute Cultivation, Potentiality of coir for salient application, Coconut Cultivation, Scheme for the Development of Coir Production Line, Step-by Step approach to start a Coir Industry, Coir Geotextiles, Eco-friendly and natural

image of coir, Jute Yarn, Sutli & Hessian Cloth, Jute Twine (Jute Rope), Gunny Bags, Jute Garments, Jute Shopping Bags, Gunny Bags (Jute Bags) Manufacturing, Handmade Paper from Jute, Environment Pollution and Effluent Treatment of Jute, Coir Fibre, Coir Pith, Biomass Charcoal Briquetting from Jute and Coir Waste, Rubberized Coir Mattresses, Coir Pith for Absorption and Recovery of Oil from Contaminated Sites, Application of Coir in Agricultural Textiles, Manufacture of Coir Corrugated Roofing Sheet, Coir Machinery Manufacturers, Plant Layout & Process Flow Sheet and Machinery, Equipment and Product Photograph. A total guide to manufacturing and entrepreneurial success in one of today's Jute & Coir Products industry. This book is one-stop guide to one of the fastest growing sectors of the Jute & Coir Products industry, where opportunities abound for manufacturers, retailers, and entrepreneurs. This is the only complete handbook on the commercial production of Jute & Coir Products. It serves up a feast of how-to information, from concept to purchasing equipment.

## Contents

### CONTENTS

#### 1. INTRODUCTION

Jute

Classification of Jute Products

1. Conventional Products

2. Speciality Products

3. Non-Traditional Products

4. Diversified Products Scheme for Modernization of Organised Jute Mills

1. Training of Workers & Supervisors

2. Machinery Development

3. Productivity Improvement & TQM Facilitation

4. Acquisition of Machinery and Plant

(Subsidy Component) Coir

A. Modernisation of Production Processes

B. Development of Machinery and

Equipments

C. Product Development and Diversification

D. Development of Environment Friendly

Technologies

#### 2. BIS SPECIFICATIONS

Jute

Coir

#### 3. JUTE: AN ECO-FRIENDLY OPPORTUNITY FOR A SUSTAINABLE FUTURE

Long-term Strategy

#### 4. GREEN MARKETING OF JUTE AND JUTE PRODUCTS

Green Products

Jute – A Green Product

Jute Production in India

Objective

Research Methodology

Nature of Data

Source of Data

Sampling Technique  
Analysis and Findings  
Manufacturing of Jute & Co-Operative  
Jute Mill  
Jute Products Produced Co-Operative Jute  
Jute Market Development and Promotion  
Challenges of Jute Marketing  
Scheme for Promotion of Jute  
Diversification  
1. Design & Development of Jute  
Diversified Products  
2. Scheme for helping NGOs and Women  
Self-Help-Groups (WSHGs)  
3. Scheme for Promotion of Jute  
Diversification  
4. Scheme for Commercialization of  
Technology  
5. Scheme for Setting up of Jute Parks for  
the Diversified Sector

## 5. THE JUTE AND JUTE TEXTILES INDUSTRY

Development and Regulatory Organizations in Jute Sector

(a) Organizations under Ministry of Textiles

Jute Manufactures Development Council (JMDC)

(b) Other Organizations supported by Ministry of Textiles in Jute Sector

International Jute Study Group (IJSJ) Incentives to Jute Sector

(a) Extension of Duty Entitlement Pass Book (DEPB) Benefits to Jute Products

(b) Technology Up gradation Fund Scheme (TUFS)

(c) Jute Technology Mission Objectives of JTM are

(d) Non Plan Schemes of JMDC

## 6. JUTE CULTIVATION

Raw Jute Scenario

Botanical Description of Jute

Jute Growing Zones

Manures and Fertilizer Application

Varieties

Seed Rate and Sowing

Weed Management

Top Dressing of Fertilizer

Water Management

Harvest

Yield

Sowing Process of Jute

Harvesting Process of Jute Retting Practices

a. Retting Practices in India and Bangladesh

b. Retting Practices in China

c. Double Immersion/Single-Wash-Retting in China

d. Retting Practices in Indonesia

e. Retting Practices in Nepal

f. Retting Practices in Thailand

Extraction Practices

Single Stem Stripping  
Stripping and Washing or Wash-Jerk-  
Method  
Indian Jute Industry at a Glance  
Major Producers of Jute  
Jute and Mesta in the National Economy  
From Jute to Diversified Products

## 7. POTENTIALITY OF COIR FOR SALIENT APPLICATION

Introduction  
Raw Material Availability & Traditional  
Application  
Swot Analysis of Coir Products  
Value Addition Present Status Through  
Collaborative Project Amongst IICT & CCRI  
Value Addition Prospects  
Scope of the Study  
Potentials of Coir as Technical Textile  
Fiber  
Introduction  
Coir as Technical Textile  
Use of Coir as Agrotech  
Use of Coir as Buildtech  
Use of Coir as Clothtech  
Use of Coir as Geotech  
Use of Coir as Hometech  
Use of Coir as Indutech  
Use of Coir as Meditech  
Use of Coir as Mobiltech  
Use of Coir as Oekotech (Ecotech)

## 8. COCONUT CULTIVATION

Origin  
Climate and Soil  
Varieties of Coconut  
Tall Varieties  
Dwarf Varieties - Suitable for Tender  
Coconut  
Hybrid Varieties  
Planting Material  
Site Selection  
Time of Planting  
Spacing and Systems of Planting  
Planting

## 9. SCHEME FOR THE DEVELOPMENT OF COIR PRODUCTION LINE

Coir Udyami Yojana  
Scheme for the Development of Production  
Infrastructure Under Coir Vikas Yojana  
Skill Up gradation & Mahila Coir Yojana  
Under Coir Vikas Yojana

## 10. STEP-BY STEP APPROACH TO START A COIR INDUSTRY

1. Identifying the Opportunity
2. Making a Product Choice
3. Process Selection
- Machinery and Equipment
4. Arranging Finance
5. Filing of Udyog Aadhaar Registration
6. Construction of Building
7. Getting the Utility Connections
8. Getting 3M's Right
- Men
- Machinery
- Materials

## 11. COIR GEOTEXTILES

- Coir Geotextiles for Strengthening Soft Soil
- Subgrade
- Application of Geotextile Separation
- Filtration
- Reinforcement
- Use of Coirgeotextiles in Unpaved Roads
- Subgrade Separation and Stabilization
- Typical Solutions
- Geotextile Benefits
- Base Reinforcement
- Coir as a Suitable Geotextile Material aor
- Roads
- Reinforcement
- As Filter/Drainage Layer
- Strength of Subgrade
- Field Installation of Geotextile
- Long Term Performance of Coir Geotextile
- Methodology
- Visual Evaluation
- Coir Geotextile for Erosion Control
- Universal Soil Loss Equation
- Coir Geotextiles
- Fuzzy Logic Results
- Selection of Coir Geotextile
- Coir Fibre and Its Application as Erosion
- Control Mats
- Mechanism of Erosion Control
- Coir Geotextile for Construction of Roads
- in Rural Areas
- Benefits
- The Coir Geotextiles - Natural Solution to
- Natures Problem
- Historic, Economic and Political
- Background
- Coir Geo Textiles for Environmental

Application

Types of Coir Bhoovastra

1. Open Weave Coir Bhoovastra
2. Geo Rolls and Vegetation Fascines
3. Non-woven Felts

Coir Needled Felt

4. Cocologs
5. Coir Fiber Beds (Cocobeds)
6. Coir Loop Fabric
7. Coir Cell Geo Textiles

Application of Coir Geo Textiles

a) For Soil Erosion Control

Site Preparation

Fixation

Laying

Vegetation & Seeding

Monitoring

b) Sub-base layer in Village/Rural Roads/

Reinforcement of Paved Roads

c) Application in the Waste Dumping Yards  
of Mines

Coir Pith Based Cyanobacterial

Biofertilizers

Cyanobacteria

Coir Pith Degradation

Cyanopith and Cyanospray

Treatment of Textile Effluent

Treatment of Tannery Effluent

Field Trials

Benefits of Coir Pith for Cyanopith and

Cyanospray

As Production

As Biofertilizers

Organic Farming with Self-Aerated Large-

Scale Composted Coir Pith

Market of Organically Grown Food

Sustainability Factors of Organic Farming

Coir Pith

Coir Pith Composting Methods

New Method for Coir Pith Composting

Overall Biochemical Reaction of

Composting and Rate of Product Formation

Composted Coir Pith Use for Organic

Farming

Potential of Bio Composting of Coir Pith

Structure of Coir Pith

Materials and Methods

Culture Inoculum

Coir Pith and Biological Supplements

a. Azolla

Culture Conditions

Diversified Uses of Coir Pith and Coir Pith

Organic Manure (C-POM)

- (a) Growing Media
- (b) As Amendment
- (c) As a Substitute to Peat Moss
- (d) As an Organic Fertilizer
- (e) As a Base for Home/Vertical/Roof Garden
- (f) As a Base for the Preparation of Cocolawn

Binderless Coir Wood

## 22. BIOMASS CHARCOAL BRIQUETTING FROM JUTE AND COIR WASTE

Introduction  
What is Charcoal?  
What can be Briquetted?  
What is Biomass Charcoal Briquetting?  
Biomass Charcoal Briquette Production  
Raw Materials Required  
Process in Manufacturing  
1. Biomass collection  
2. Carbonization Process  
I. Briquettes Drying Stage  
II. Initial Carbonization Stage  
III. Comprehensive Carbonizing Stage  
(temperature 300~6500C)  
3. Briquetting  
Steps for Manufacturing  
Process Flow diagram  
Machinery Details and Specifications  
Company Details

## 23. RUBBERIZED COIR MATTRESSES

Introduction  
Types & Structure of Coir Fibre  
Uses and Applications  
Properties of Coir  
Physical Properties of Coir Fibre  
Chemical Properties (Composition)  
Advantages of Rubberized Coir Mattresses  
Manufacturing Process  
Embedding of Coir Fibres  
Combing  
Leveling  
1. Dispersion  
2. Solution Preparation

## 24. COIR PITH FOR ABSORPTION AND RECOVERY OF OIL FROM CONTAMINATED SITES

Introduction  
Process  
Methodology  
Performance Result of the Screw Press

## 25. APPLICATION OF COIR IN AGRICULTURAL TEXTILES

Introduction  
Properties  
Uses of Coir in Agricultural Textiles  
Erosion Control Blankets for Controlling  
Slope Erosion  
Mulch Blankets  
Basket Liners  
Bio-Rolls  
Roof Greening Mats  
Grow Sticks  
Coco Logs  
Grow Media

## 26. MANUFACTURE OF COIR CORRUGATED ROOFING SHEET

Introduction  
(1)Physical Properties of Coir Fibre  
(2)Chemical Properties (Components of  
Coir Fibre)  
Materials and Methods for the  
Manufacture of Coir Corrugated Sheets  
1. Coconut Coir Non-Woven Felt  
2. Woven Bamboo Mat  
3. Resin  
Raw Materials for Resin Manufacture  
Novolacs  
Applications  
Test Methods to Assess the Quality of  
Cardanol  
4. BOPP Film as Releasing Agent  
5. Preservative Chemicals  
Batch Resin Reactor or Resin Kettle  
1. Preparation of Phenol Formaldehyde  
Resin  
Flow Chart for Preparation of PF Resin  
2. Preparation of Phenol Cardanol  
Formaldehyde Resin  
Flow Chart for Preparation of PCF Resin

Phenol-Methanol Polymerization of Resin  
Consolidation of Non-Woven Coir Felt  
Construction of coir and bamboo mat for  
Corrugated Sheet  
Machinery/Equipment  
Significant Aspect in Manufacture of Coir  
Felt Corrugated Sheet  
Moisture Content of Coir Felt and Mats  
PCF Resin Adhesive Formulation [for  
bonding]  
Requirement of PCF Resin  
Impact of Resin Quality  
Glue Application on the Coir Felt and  
Bamboo Mat  
Balance and Drying of Resin Coated Mats  
Assembly of Coir Felts/Mats  
Hot Pressing  
Dimensioning and Finishing of Coir  
Corrugated Sheets  
Test Performed on Coir Felt Corrugated  
Sheets  
List of Machinery and Equipment  
List of Raw Materials  
Suppliers and Manufacturers of Plant  
Machinery

29. MACHINERY, EQUIPMENT AND PRODUCT PHOTOGRAPHS

## About NIIR

**NIIR PROJECT CONSULTANCY SERVICES (NPCS)** is a reliable name in the industrial world for offering integrated technical consultancy services. NPCS is manned by engineers, planners, specialists, financial experts, economic analysts and design specialists with extensive experience in the related industries.

Our various services are: Detailed Project Report, Business Plan for Manufacturing Plant, Start-up Ideas, Business Ideas for Entrepreneurs, Start up Business Opportunities, entrepreneurship projects, Successful Business Plan, Industry Trends, Market Research, Manufacturing Process, Machinery, Raw Materials, project report, Cost and Revenue, Pre-feasibility study for Profitable Manufacturing Business, Project Identification, Project Feasibility and Market Study, Identification of Profitable Industrial Project Opportunities, Business Opportunities, Investment Opportunities for Most Profitable Business in India, Manufacturing Business Ideas, Preparation of Project Profile, Pre-Investment and Pre-Feasibility Study, Market Research Study, Preparation of Techno-Economic Feasibility Report, Identification and Section of Plant, Process, Equipment, General Guidance, Startup Help, Technical and Commercial Counseling for setting up new industrial project and Most Profitable Small Scale Business.

NPCS also publishes various process technology, technical, reference, self employment and startup books, directory, business and industry database, bankable detailed project report, market research report on various industries, small scale industry and profit making business. Besides being used by manufacturers, industrialists and entrepreneurs, our publications are also used by professionals including project engineers, information services bureau, consultants and project consultancy firms as one of the input in their research.

Our Detailed Project report aims at providing all the critical data required by any entrepreneur vying to venture into Project. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line.
