

# The Complete Book on Jute & Coir Products (with Cultivation & Processing) - 2nd Revised Edition

**Author:** P. K. Chattopadhyay

**Format:** Paperback

**ISBN:** 9788194737988

**Code:** NI287

**Pages:** 464

**Price:** Rs. 1,575.00 **US\$** 150.00

**Publisher:** NIIR PROJECT CONSULTANCY SERVICES

Usually ships within 5 days

The Complete Book on Jute & Coir Products (with Cultivation & Processing) - 2nd Revised Edition

Jute is a natural fiber popularly known as the golden fiber. It has gained its name as olden fibre due to its shiny brown colour. The fibre is affordable to all the consumers and is completely biodegradable. It is one of the cheapest and the strongest of all natural fibers and considered as fiber of the future. Jute is second only to cotton in world's production of textile fibers. Jute fibers are composed primarily of the plant materials cellulose and lignin. Jute is the name of the plant or fiber used to make burlap, hessian or gunny cloth. Coir is a versatile natural fibre extracted from mesocarp tissue, or husk of the coconut fruit Generally fibre is of golden color when cleaned after removing from coconut husk; and hence the name " The Golden Fibre".

Both coir and jute are natural fibers and come from sustainable products. Coir comes from the husks of coconuts that were typically discarded. It is harvested by hand and soaked in water to soften the fibers, which are then woven together. Jute fiber comes from the stem of the jute plant and is the second most important vegetable fiber, after cotton, when it comes to production and use.

Global jute market on the basis of type, covering jute sack bags and jute shopping bags. Currently, jute sack bags dominate the market, accounting for the majority of the sales volume. Growing environmental awareness among the masses has also created an inclination toward natural and biodegradable products, like jute bags, over plastic bags. This, along with many government initiatives, is bolstering the jute industry. For instance, the Government of India has mandated the packaging of food grain and sugar in jute bags. Some of the key players operative in the market include Aarbur, Ashoka Exports, Hitaishi-KK, Howrah Mills Co. Ltd., Shree Jee International India Ltd. and Gloster Limited.

The growing demand for eco-friendly products in the market is where coir should fast step in. It is a lightweight, soilless growing medium made from the fibers which completely renewable and considered an excellent choice for environmental sustainability. The efforts support the market expansion for coir and the Asia Pacific hopes to further increase production by streamlining the fiber collection process to meet demand.

The Major contents of the Book are BIS Specifications, Jute: an eco-friendly opportunity for a sustainable Future, Green Marketing Of Jute and Jute Products, The Jute And Jute Textiles Industry, Jute Cultivation, Potentiality of coir for salient application, Coconut Cultivation, Scheme for the Development of Coir Production Line, Step-by Step approach to start a Coir Industry, Coir Geotextiles, Eco-friendly and natural image of coir, Jute Yarn, Sutli& Hessian Cloth, Jute Twine (Jute Rope), Gunny Bags, Jute Garments, Jute Shopping Bags, Gunny Bags (Jute Bags) Manufacturing, Handmade Paper from Jute, Environment Pollution and Effluent Treatment of Jute, Coir Fibre, Coir Pith, Biomass Charcoal Briquetting from Jute and Coir Waste, Rubberized Coir Mattresses, Coir Pith for Absorption and Recovery of Oil from Contaminated Sites, Application of Coir in Agricultural Textiles, Manufacture of Coir Corrugated Roofing Sheet, Coir Machinery Manufacturers, Plant Layout & Process Flow Sheet and Machinery, Equipment and Product Photograph. A total guide to manufacturing and entrepreneurial success in one of today's Jute &Coir Products industry. This book is one-stop guide to one of the fastest growing sectors of the Jute & Coir Products industry, where opportunities abound for manufacturers, retailers, and entrepreneurs. This is the only complete handbook on the commercial production of Jute & Coir Products. It serves up a feast of how-to information, from concept to purchasing equipment.

## Contents

### CONTENTS

#### 1. INTRODUCTION

Jute

Classification of Jute Products

1. Conventional Products

2. Speciality Products

3. Non-Traditional Products

4. Diversified Products Scheme for Modernization of Organised Jute Mills

1. Training of Workers & Supervisors

2. Machinery Development

3. Productivity Improvement & TQM Facilitation

4. Acquisition of Machinery and Plant

(Subsidy Component) Coir

A. Modernisation of Production Processes

B. Development of Machinery and

Equipments

C. Product Development and Diversification

D. Development of Environment Friendly

Technologies

#### 2. BIS SPECIFICATIONS

Jute

Coir

#### 3. JUTE: AN ECO-FRIENDLY OPPORTUNITY FOR A SUSTAINABLE FUTURE

Long-term Strategy

#### 4. GREEN MARKETING OF JUTE AND JUTE PRODUCTS

Green Products

Jute – A Green Product

Jute Production in India

Objective  
Research Methodology  
Nature of Data  
Source of Data  
Sampling Technique  
Analysis and Findings  
Manufacturing of Jute & Co-Operative  
Jute Mill  
Jute Products Produced Co-Operative Jute  
Jute Market Development and Promotion  
Challenges of Jute Marketing  
Scheme for Promotion of Jute  
Diversification  
1. Design & Development of Jute  
Diversified Products  
2. Scheme for helping NGOs and Women  
Self-Help-Groups (WSHGs)  
3. Scheme for Promotion of Jute  
Diversification  
4. Scheme for Commercialization of  
Technology  
5. Scheme for Setting up of Jute Parks for  
the Diversified Sector

## 5. THE JUTE AND JUTE TEXTILES INDUSTRY

Development and Regulatory Organizations in Jute Sector

(a) Organizations under Ministry of Textiles

Jute Manufactures Development Council (JMDC)

(b) Other Organizations supported by Ministry of Textiles in Jute Sector

International Jute Study Group (IJSJ) Incentives to Jute Sector

(a) Extension of Duty Entitlement Pass Book (DEPB) Benefits to Jute Products

(b) Technology Up gradation Fund Scheme (TUFS)

(c) Jute Technology Mission Objectives of JTM are

(d) Non Plan Schemes of JMDC

## 6. JUTE CULTIVATION

Raw Jute Scenario

Botanical Description of Jute

Jute Growing Zones

Manures and Fertilizer Application

Varieties

Seed Rate and Sowing

Weed Management

Top Dressing of Fertilizer

Water Management

Harvest

Yield

Sowing Process of Jute

Harvesting Process of Jute Retting Practices

a. Retting Practices in India and Bangladesh

b. Retting Practices in China

c. Double Immersion/Single-Wash-Retting in China

- d. Retting Practices in Indonesia
- e . Retting Practices in Nepal
- f. Retting Practices in Thailand
- Extraction Practices
- Single Stem Stripping
- Stripping and Washing or Wash-Jerk-Method
- Indian Jute Industry at a Glance
- Major Producers of Jute
- Jute and Mesta in the National Economy
- From Jute to Diversified Products

## 7. POTENTIALITY OF COIR FOR SALIENT APPLICATION

- Introduction
- Raw Material Availability & Traditional Application
- Swot Analysis of Coir Products
- Value Addition Present Status Through Collaborative Project Amongst IICT & CCRI
- Value Addition Prospects
- Scope of the Study
- Potentials of Coir as Technical Textile Fiber
- Introduction
- Coir as Technical Textile
- Use of Coir as Agrotech
- Use of Coir as Buildtech
- Use of Coir as Clothtech
- Use of Coir as Geotech
- Use of Coir as Hometech
- Use of Coir as Indutech
- Use of Coir as Meditech
- Use of Coir as Mobiltech
- Use of Coir as Oekotech (Ecotech)

## 8. COCONUT CULTIVATION

- Origin
- Climate and Soil
- Varieties of Coconut
- Tall Varieties
- Dwarf Varieties - Suitable for Tender Coconut
- Hybrid Varieties
- Planting Material
- Site Selection
- Time of Planting
- Spacing and Systems of Planting
- Planting

## 9. SCHEME FOR THE DEVELOPMENT OF COIR PRODUCTION LINE

- Coir Udyami Yojana

Scheme for the Development of Production  
Infrastructure Under Coir Vikas Yojana  
Skill Up gradation & Mahila Coir Yojana  
Under Coir Vikas Yojana

## 10. STEP-BY STEP APPROACH TO START A COIR INDUSTRY

1. Identifying the Opportunity
2. Making a Product Choice
3. Process Selection
4. Arranging Finance
5. Filing of Udyog Aadhaar Registration
6. Construction of Building
7. Getting the Utility Connections
8. Getting 3M's Right

Men

Machinery

Materials

## 11. COIR GEOTEXTILES

Coir Geotextiles for Strengthening Soft Soil  
Subgrade

Application of Geotextile Separation

Filtration

Reinforcement

Use of Coirgeotextiles in Unpaved Roads

Subgrade Separation and Stabilization

Typical Solutions

Geotextile Benefits

Base Reinforcement

Coir as a Suitable Geotextile Material for

Roads

Reinforcement

As Filter/Drainage Layer

Strength of Subgrade

Field Installation of Geotextile

Long Term Performance of Coir Geotextile

Methodology

Visual Evaluation

Coir Geotextile for Erosion Control

Universal Soil Loss Equation

Coir Geotextiles

Fuzzy Logic Results

Selection of Coir Geotextile

Coir Fibre and Its Application as Erosion

Control Mats

Mechanism of Erosion Control

Coir Geotextile for Construction of Roads

in Rural Areas

Benefits

The Coir Geotextiles - Natural Solution to

Natures Problem  
Historic, Economic and Political  
Background  
Coir Geo Textiles for Environmental  
Application  
Types of Coir Bhoovastra  
1. Open Weave Coir Bhoovastra  
2. Geo Rolls and Vegetation Fascines  
3. Non-woven Felts  
Coir Needled Felt  
4. Cocologs  
5. Coir Fiber Beds (Cocobeds)  
6. Coir Loop Fabric  
7. Coir Cell Geo Textiles  
Application of Coir Geo Textiles  
a) For Soil Erosion Control  
Site Preparation  
Fixation  
Laying  
Vegetation & Seeding  
Monitoring  
b) Sub-base layer in Village/Rural Roads/  
Reinforcement of Paved Roads  
c) Application in the Waste Dumping Yards  
of Mines  
Coir Pith Based Cyanobacterial  
Biofertilizers  
Cyanobacteria  
Coir Pith Degradation  
Cyanopith and Cyanospray  
Treatment of Textile Effluent  
Treatment of Tannery Effluent  
Field Trials  
Benefits of Coir Pith for Cyanopith and  
Cyanospray  
As Production  
As Biofertilizers  
Organic Farming with Self-Aerated Large-  
Scale Composted Coir Pith  
Market of Organically Grown Food  
Sustainability Factors of Organic Farming  
Coir Pith  
Coir Pith Composting Methods  
New Method for Coir Pith Composting  
Overall Biochemical Reaction of  
Composting and Rate of Product Formation  
Composted Coir Pith Use for Organic  
Farming  
Potential of Bio Composting of Coir Pith  
Structure of Coir Pith  
Materials and Methods  
Culture Inoculum  
Coir Pith and Biological Supplements

- a. Azolla
- Culture Conditions
- Diversified Uses of Coir Pith and Coir Pith
- Organic Manure (C-POM)
- (a) Growing Media
- (b) As Amendment
- (c) As a Substitute to Peat Moss
- (d) As an Organic Fertilizer
- (e) As a Base for Home/Vertical/Roof Garden
- (f) As a Base for the Preparation of Cocolawn
- Binderless Coir Wood
- Introduction
- Materials and Methods
- Materials
- Methods
- Drying of the Materials
- Sieving
- Hot Pressing
- Effect of Moisture
- Effect of Temperature
- Effect of Pressure and Cooling Under Pressure

## 12. ECO-FRIENDLY AND NATURAL IMAGE OF COIR

- Price and Performance of Improved Products
- Marketing Strategy
- Supply
- Promotional Programmes

## 13. JUTE YARN, JUTE SUTLI & HESSIAN CLOTH

- Weaving Integrated Unit
- Introduction
- Uses & Applications
- Properties
- Manufacturing Process
- Twin Cord Making
- Twin Cord Softening Section
- Manufacturing Process of Hessian Cloth
- Process Flow Diagram
- Detailed Manufacturing Process of Jute Yarns & Other Jute Processing
- Batching
- Drawing
- Roving
- Spinning
- Twisting
- Reeling
- Winding
- Dressing and Beaming

# About NIIR

**NIIR PROJECT CONSULTANCY SERVICES (NPCS)** is a reliable name in the industrial world for offering integrated technical consultancy services. NPCS is manned by engineers, planners, specialists, financial experts, economic analysts and design specialists with extensive experience in the related industries.

Our various services are: Detailed Project Report, Business Plan for Manufacturing Plant, Start-up Ideas, Business Ideas for Entrepreneurs, Start up Business Opportunities, entrepreneurship projects, Successful Business Plan, Industry Trends, Market Research, Manufacturing Process, Machinery, Raw Materials, project report, Cost and Revenue, Pre-feasibility study for Profitable Manufacturing Business, Project Identification, Project Feasibility and Market Study, Identification of Profitable Industrial Project Opportunities, Business Opportunities, Investment Opportunities for Most Profitable Business in India, Manufacturing Business Ideas, Preparation of Project Profile, Pre-Investment and Pre-Feasibility Study, Market Research Study, Preparation of Techno-Economic Feasibility Report, Identification and Section of Plant, Process, Equipment, General Guidance, Startup Help, Technical and Commercial Counseling for setting up new industrial project and Most Profitable Small Scale Business.

NPCS also publishes various process technology, technical, reference, self employment and startup books, directory, business and industry database, bankable detailed project report, market research report on various industries, small scale industry and profit making business. Besides being used by manufacturers, industrialists and entrepreneurs, our publications are also used by professionals including project engineers, information services bureau, consultants and project consultancy firms as one of the input in their research.

Our Detailed Project report aims at providing all the critical data required by any entrepreneur vying to venture into Project. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line.
