

The Complete Book on Ginger Cultivation and Manufacture of Value Added Ginger Products (Ginger Storage, Ginger Oil, Ginger Powder, Ginger Paste, Ginger Beer, Instant Ginger Powder Drink and Dry Ginger from Green Ginger)

Author: NPCS Board of Consultants & Engineers

Format: Paperback

ISBN: 9789381039854

Code: NI308

Pages: 352

Price: Rs. 1,575.00 **US\$** 150.00

Publisher: NIIR PROJECT CONSULTANCY SERVICES

Usually ships within **5** days

Ginger is the common name for *Zingiber officinale*, which was originally cultivated in China and now equally spread around the world. Ginger is a herb but is often known as a spice, with a strong distinct flavor that can increase the production of saliva. The part that is used as spice on the plant itself is the rhizomes or ginger root. This ginger root is traditionally used with sweet foods in Western cuisine being included in popular recipes such as ginger ale, gingerbread, ginger biscuits and ginger cake. It is also used in many countries as a medicinal ingredient which many believe in. Historically, ginger has a long tradition of being very effective in alleviating symptoms of gastrointestinal distress. In herbal medicine, ginger is regarded as an excellent carminative and intestinal spasmolytic. Modern scientific research has revealed that ginger possesses numerous therapeutic properties including antioxidant effects, an ability to inhibit the formation of inflammatory compounds, and direct anti-inflammatory effects.

India is the leading producer of ginger oil and dominates the ginger oil market with almost half shares out of total market. China is also known for ginger production and trade of ginger oil. Asia Pacific mainly exports ginger oil to North America and European markets.

Increasing number of health conscious consumers, and their demands for natural oils and extracts based products is the major factor driving growth for essential oils and in turn ginger oil market. Ginger is majorly used in spices and thus ginger oils and oleoresins are preferred to prepared dried spices as flavoring in food industry, because they are more stable, contamination free, cleaner and can be easily standardized by blending. Thus the growth of food industry and spices demand are another factors driving growth of ginger oil market. The growth of natural personal care products industry is another growth driver for ginger oil market.

The major content of the book are Ginger Cultivation, Farm and Forestry Production for Ginger, Diseases & Pest Management in Ginger, Medicinal Values of Ginger, Active Ingredients of Ginger, Pharmacological Activity of Ginger, Ginger Storage, Ginger Processing, Ginger Oleoresin, Ginger Oil, Ginger Beer, Ginger Powder, Ginger Paste, Instant Ginger Powder Drink, Ginger Candy, Dry Ginger from Green Ginger, Extraction of Ginger Oleoresin from Ginger-Root Using Co₂, Production of Ginger Rhizome by Shoot-Tip Culture, Extraction of Essential Oils from Ginger Rhizome Using Steam Distillation Method, Packaging and Labelling BIS Specifications, Good Manufacturing Practices, Sample Plant Layouts, Photographs of Machinery with Suppliers Contact Details.

This book will be a mile stone for its readers who are new to this sector, will also find useful for professionals, entrepreneurs, those studying and researching in this important area.

Contents

1. INTRODUCTION

History and Origin of Ginger

Processing of Ginger

Peeling

Drying

Storage

Bleached Ginger

Transplanting Technology for Reduction of Seed

Cost

Technology

Manuring

Irrigation

Inter Cultivation

Inter Cropping and Crop Rotation

Uses of Ginger

Best Ways to Use Ginger

Bioactive Components of Ginger

Metabolism of Ginger

Properties

Applications of Ginger

Ginger Health Benefits

1. Stroke and Heart Disease

2. Indigestion and Nausea

3. Malabsorption

4. Compromised Immunity and Respiratory

Function

5. Bacterial Infections

Healing Properties

Cosmetic Uses of Ginger

Nutritional Value of Ginger

Nutrient Profile for Ginger

2. GINGER CULTIVATION

Climate and Soil

Soil for Ginger Farming

Varieties

Planting Season

Preparation of Land

Manures and Fertilisers
Mulching
Crop Nutrition
Nitrogen
Potassium
Phosphorus
Calcium
Earthing up
Growth Regulators
Harvesting and Curing
Production Technology
Seed Size
Seed Rate
Seed Treatment
Planting
Spacing
Depth of Planting
Crop Rotation
Storage of Seed Rhizomes
Alternate Method of Ginger Production

3. FARM AND FORESTRY PRODUCTION FOR GINGER

Uses and Products
Botanical Description
Brief Botanical Description
Distribution
Environmental Preferences and Tolerances
Climate
Soils
Growth and Development
Agroforestry and Environmental Services
Propagation and Planting
Cultivation
Special Horticultural Techniques
Advantages and Disadvantages of Growing in Polycultures
Pests and Diseases
Susceptibility to Pests/Pathogens
Preventing and Treating Problem Pests and Diseases
Disadvantages of this Crop
Potential for Invasiveness
Commercial Production
Postharvest Handling and Processing

4. DISEASES & PEST MANAGEMENT IN GINGER

Diseases
1. Soft Rot or Paheli: *Pythium Aphanidrematum*
Management
2. Dry Rot: *Fusarium* and *Pratylenchus* Complex
Management
3. Leaf Spot/Blight: *Phyllosticta Zingiberi*
Management
4. Bacterial Wilt or Prem Rog: *Ralstonia*

Solanacearum

Integrated Pest and Disease Management for
Ginger

5. MEDICINAL VALUES OF GINGER

Active Compounds in Ginger

Anti-Inflammatory & Anti-Oxidant

Nausea

Digestion

Cholesterol

Cancer

Anti-Bacterial

Migraines

Drug Interactions

Malabsorption

Bacterial Diarrhea

Anticarcinogenic Activities of Ginger

Therapeutic Health Benefits of Ginger

Ginger as Growth Promoter

Osteoarthritis

Use of Ginger as a Traditional Medicine

Role of Ginger and Its Constituents in Prevention
and Treatment of Gastrointestinal Cancer

Gastric Cancer

Pancreatic Cancer

Liver Cancer

Colorectal Cancer

Cholangiocarcinoma

Clinical Studies of Ginger against GI Cancer

Ayurveda Health Benefits of Ginger

Trikatu for Weak Digestion

Dry Ginger is Hot and Warms the Lungs and

Dries Cold Phlegm

Fresh Ginger Warms the Stomach and Promotes

Digestion and Absorption

Fresh Ginger to Disperse Cold, and to Treat

Colds and Coughs

Ginger Root Contraindicated in Pitta Elevation

Ginger Root in Ayurvedic Churnas

6. ACTIVE INGREDIENTS OF GINGER

Introduction

Chemical Structure of Active Constituents

Mechanism of Action of Ginger in Diseases

Management

7. PHARMACOLOGICAL ACTIVITY OF GINGER

Introduction

Pharmacology

Antiemetic Effects

Anti-Inflammatory Effects

Antioxidant Effects

Cardiovascular Effects

Gastrointestinal Effects

Antitussive Effects

Immunomodulatory Effects

Lipid Effects
Weight Loss Effects
Antiarthritic Effect
Antimicrobial Activities
Radio Protective Activity
Antigenotoxic Activity
Mutagenicity
8. GINGER STORAGE
Types of Ginger
Composition of Ginger
Ginger Storage Process
Controlled Temperature and Humidity Storage
9. GINGER PROCESSING
Introduction
Forms of Ginger
Processing Dried Ginger
Making Dried Ginger
Quality Assurance of Dried Ginger
Grading
Grinding
Packaging
Storage
Ginger Oil Distillation
Advantages of Ginger Dehydration
1. Enhance Ginger's Value
2. More Cost-Effective
3. Wide Application
Hot-Air Circulation Drying Technology
Process Flow Sheet
10. GINGER OLEORESIN
Uses
11. GINGER OIL
Introduction
Solubility
Chemical Composition
Uses and Application
Packing and Marking
Manufacturing Process
Preparation of Raw Material
Cleaning
Milling
Soaking
Loading or Charging
Bleaching of Ginger
Practice of Distillation
Steam Distillation
End of Distillation
Treatment of the Volatile Oil
Treatment of the Distillation Water
Manufacturing Process Flow Diagram
Rectification of Essential Oils
Problems Relating to Steam Distillation
Environment Pollution and Effluent Treatment

12. GINGER BEER

Ginger Beer

Root Beer

Ancient Root Beer Heritage

Best Ginger Beers

13. GINGER POWDER

Introduction

Properties

Uses of Ginger Powder

Manufacturing Process of Ginger Powder

Process Flow Sheet

14. GINGER PASTE

Properties of Ginger Paste

Uses of Ginger Paste

Chemical & Physical Specification of Ginger

Manufacturing Process

Process Flow Diagram

15. INSTANT GINGER POWDER DRINK

Introduction

Etymology

Chemistry

Uses

Culinary Use

Ginger Acts as a Useful Food Preservative

Regional Use

Properties

1. Citric Acid

2. Measurement

3. Sodium Benzoate

Manufacturing Process

16. GINGER CANDY 201

Ginger Candy

Flow Chart of Technology/Process

17. DRY GINGER FROM GREEN GINGER

Introduction

History

Uses and Application

Composition of Dry Ginger

Manufacturing Process

Process of Manufacture

Ginger not Divested of Cork

Ginger Clivested of Cork

Grinding

Progress Flow Sheet

18. EXTRACTION OF GINGER OLEORESIN FROM GINGER-ROOT USING CO₂

Environmental Significance

Equipment Descriptions

Necessary Information and Simulation Hints

19. PRODUCTION OF GINGER RHIZOME BY SHOOT-TIP CULTURE

Introduction

Field Study

Effect of Tissue Cultured Rhizomes of Ginger
20. EXTRACTION OF ESSENTIAL OILS FROM
GINGER RHIZOME USING STEAM
DISTILLATION METHOD
Overview of Ginger
Physical Properties of Ginger
Usage of Ginger
Usual Methods of Obtaining Ginger Essential Oil
Steam Distillation
Problem Statement
Separation Processes
(i) Absorption
(ii) Distillation
(iii) Liquid-Liquid Extraction
(iv) Leaching
(v) Membrane Processing
(vi) Crystallization
(vii) Adsorption
(viii) Ion Exchange
• Purification
• Concentration
• Fractionation
Extraction
Distillation
21. PACKAGING AND LABELLING
Functions of Packaging
22. BIS SPECIFICATIONS
23. GOOD MANUFACTURING PRACTICES
1. Storage of Raw Materials
2. Tempering/Thawing of Frozen Materials
3. Processing
Post-Processing Handling
i) Facility Design
ii) Sanitation
iii) Employees
Material Handling
4. Storage of Finished Product
5. Loading and Shipping
Management of Hygiene Aspects
Environmental Monitoring
Temperature Monitoring
Design and Facilities
i) Principles and Concepts of GMP
ii) Establishment: Design and Facilities
Location
Equipment
Premises and Rooms
Equipment – Design
Equipment
Facilities
Control of Operations
i) Control of Food Hazards
ii) Key Aspects of Hygiene Control Systems

- iii) Incoming Raw Material Requirements
- iv) Packaging
- v) Water
- vi) Management and Supervision
- vii) Documentation and Records
- viii) Recall Procedures

Establishment: Maintenance and Sanitation

- i) Maintenance and Cleaning
- ii) Cleaning Procedures and Methods
- iii) Pest Control Systems
- iv) Waste Management
- v) Monitoring Effectiveness
- vi) Establishment : Personal Hygiene
- vii) Transportation
- viii) Product Information and Consumer Awareness
- ix) Training

24. SAMPLE PLANT LAYOUTS

Agro Processing Workflow

25. PHOTOGRAPHS OF MACHINERY WITH SUPPLIERS CONTACT DETAILS

About NIIR

NIIR PROJECT CONSULTANCY SERVICES (NPCS) is a reliable name in the industrial world for offering integrated technical consultancy services. NPCS is manned by engineers, planners, specialists, financial experts, economic analysts and design specialists with extensive experience in the related industries.

Our various services are: Detailed Project Report, Business Plan for Manufacturing Plant, Start-up Ideas, Business Ideas for Entrepreneurs, Start up Business Opportunities, entrepreneurship projects, Successful Business Plan, Industry Trends, Market Research, Manufacturing Process, Machinery, Raw Materials, project report, Cost and Revenue, Pre-feasibility study for Profitable Manufacturing Business, Project Identification, Project Feasibility and Market Study, Identification of Profitable Industrial Project Opportunities, Business Opportunities, Investment Opportunities for Most Profitable Business in India, Manufacturing Business Ideas, Preparation of Project Profile, Pre-Investment and Pre-Feasibility Study, Market Research Study, Preparation of Techno-Economic Feasibility Report, Identification and Section of Plant, Process, Equipment, General Guidance, Startup Help, Technical and Commercial Counseling for setting up new industrial project and Most Profitable Small Scale Business.

NPCS also publishes various process technology, technical, reference, self employment and startup books, directory, business and industry database, bankable detailed project report, market research report on various industries, small scale industry and profit making business. Besides being used by manufacturers, industrialists and entrepreneurs, our publications are also used by professionals including project engineers, information services bureau, consultants and project consultancy firms as one of the input in their research.

Our Detailed Project report aims at providing all the critical data required by any entrepreneur vying to venture into Project. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line.

NIIR PROJECT CONSULTANCY SERVICES , 106-E, Kamla Nagar, New Delhi-110007, India. **Email:** npcs.india@gmail.com **Website:** NIIR.org
