"Ambulatory surgery is a surgical procedure that allows patients to return home on the same day of the surgery. Such surgery centers can be either standalone units, or attached/affiliated to hospitals. Currently, with rapid technological advancements in the Indian healthcare sector, ~60% of all surgeries can be performed at short-stay surgery centers. Ambulatory care services are provided at various healthcare facilities like dialysis clinics, ambulatory surgical centers, hospital outpatient departments, and outpatient clinics, among others.

Global market overview:

As of 2018, 60% of surgeries performed globally are day care or short stay surgeries. The global ambulatory service market is expected to reach INR 242 Tn by 2024, growing at a CAGR of ~6% from INR 155 Tn in 2016.

The major factors boosting the growth of the market are increasing aging population, growing treatment costs, increasing consumer awareness, and high government expenditure on ambulatory care services, among others.

AmSurg Corp., Surgery Partners, Symbion, and IntergraMed America, Inc., among others, are some of the major players operating in the global ambulatory services market.

India market overview:

The ambulatory surgery market has immense potential for growth in India, since the country is currently burdened with more than 20% of the world's diseases, but has only 6% of the world's hospital beds. Ambulatory surgery is expected to reduce the average cost of treatment by 70%, when compared to the cost of inpatient surgery.

In the last few years, there has been a significant increase in ambulatory surgery centers in the fields of ophthalmology, gastroenterology, and orthopaedics, among others. It is expected that by 2020, 75% of the surgeries performed in India will be ambulatory surgeries, as compared to 43% in 2016. Hospitals are allotting some of their beds to ambulatory surgery centers, for efficient asset utilization.

Hospital integrated units, hospital autonomous units, hospital satellite units, and freestanding units are the different formats of ambulatory surgery centers in India. Hospital integrated units share facilities like operation theater (OT), outpatient department (OPD), and the healthcare workforce with the hospital, without the nursing staff. Freestanding units are autonomous units that have all the facilities like pharmacies, diagnostic labs, operation theaters, outpatient departments, dedicated workforce, and full-time consultants.

Healthcare centers specializing in eye care, dialysis, and oncology treatment have the same format as ambulatory surgical centers. It is expected that by the end of 2020, more ambulatory surgical centres specializing in oncology will be established in Tier II and Tier III cities in India, to meet the increasing demand for radiation therapy and healthcare consultancy services.

In 2015, the Indian ambulatory surgery market was valued at INR 250 Bn, and it is expected to grow at a CAGR of ~15% during the forecasted period.

Key growth drivers of the market:

The factors driving market growth are high demand for ambulatory care centers in various therapeutic areas, cost-effectiveness, advancements in the healthcare sector, and lack of proper medical facilities in India.

India lacks proper medical facilities for a number of diseases like cataract, cancer, and acute kidney diseases, among others. As of 2016, ~0.2 Mn people needed dialysis treatment every year in India, whereas there were only 0.4 dialysis centers per Mn people. In India, 95% of medical colleges do not provide comprehensive cancer care services that include surgical, medical, and radiation oncology departments, in the same campus. Thus, there is scope to establish more day care centers that will meet the rising demand for healthcare facilities in the country.

As of 2017, medical inflation in India was 15%, while the government's expenditure on healthcare was around 1.4% of the GDP. More ambulatory surgery centers need to be set up to provide surgery treatments on an outpatient basis, thereby reducing expenditure on hospital stays.

The public healthcare system in India is plagued with underfunded hospitals and clinics, and ineffective health schemes. Rising patient inflow from rural areas to metropolitan cities for healthcare services, and lack of hospital beds, have led to the inception of day care surgery or ambulatory surgery centers (ASC). In 2016, it was reported that India had 0.9 hospital beds per 1,000 people, which is lowest among the BRIC nations. These are the key factors driving the growth of ambulatory care services across the country.

Key challenges of the market:

The major challenges affecting market growth are diagnostic errors, and challenges with regard to post-operative care.

Patients have to be diagnosed quickly at ambulatory surgery centres, which can lead to inaccurate diagnosis, and improper treatment by medical practitioners.

Ambulatory surgery centers discharge their patients on the same day of the surgery. This acts as a challenge in providing proper post-operative care and controlling infections may become difficult.

Competitive Landscape:

Some of the key players operating in the market are:

- o Dr. Agarwal's Eye Hospital Limited
- o Fortis Healthcare Limited
- o Apollo Health and Lifestyle Limited
- o CARE Hospitals Private Limited
- o Max Healthcare Institute Limited
- o Sankara Nethralaya Private Limited
- o Vasan Healthcare Private Limited
- o Columbia Asia Hospitals Private Limited

Fortis Healthcare Limited provides ambulatory healthcare services for emergencies, non-invasive image processing, echocardiography, cardiovascular CT, and thallium heart mapping, among others.

Apollo Health and Lifestyle Limited operates Apollo Spectra Hospitals, which are short stay or day surgery hospitals. As of March 31, 2017, the company had 11 short surgical stay centers across India and abroad.

CARE Hospitals Private Limited operates CARE Outpatient Centers in India, which offer day care surgeries in various therapeutic areas like ENT, gynecology, orthopedics, ophthalmology, vascular surgery, general surgery, and cosmetic and plastic surgery.

Notable Development:

On January 12, 2016, Dr. Agarwal's Eye Hospital announced its expansionary plan for the next 5 years, worth INR 6 bn. The company is expected to scale up its operations in India and overseas.

Contents

"Chapter 1: Executive summary

- 1.1 Market scope and segmentation
- 1.2 Key questions answered in this study
- 1.3 Executive summary

Chapter 2: Introduction

- 2.1. Market definitions
- 2.2. Different business models
- 2.3. Digital game genres
- 2.4. Value chain of games

Chapter 3: U.S. Digital Gaming market - overview

- 3.1. Historical (2015-2017) Digital Gaming market revenue (USD Bn)
- 3.2. Forecasted (2018-2023) Digital Gaming market revenue (USD Bn)
- 3.3. Drivers
- 3.4. Challenges
- 3.5. Trends

Chapter 4: U.S. Digital Gaming market segmentation - by platform

- 4.1. U.S. market share and size (USD Bn – 2017) – by platforms (PC, Console, Mobile)
- 4.2. U.S. PC games market
 - Market size (USD Bn) (2015, 2017, 2023)
 - Drivers
 - Challenges
- 4.3. U.S. mobile games market
 - Market size (USD Bn) (2015, 2017, 2023)
 - Drivers
 - Challenges
- 4.4. U.S. console games market
 - Market size (USD Bn) (2015, 2017, 2023)
 - Drivers
 - Challenges

Chapter 5: U.S. Digital Gaming market segmentation – by revenue models

- 5.1. U.S. market share and size (USD Bn - 2017) – by revenue models (Freemium, Pay to Play, Advertising)
- 5.2. U.S. freemium model market
 - Market size (USD Bn) (2015, 2017, 2023)
 - Drivers
 - Challenges

- 5.3. U.S. pay to play model market
 - Market size (USD Bn) (2015, 2017, 2023)
 - Drivers
 - Challenges
- 5.4. U.S. advertising model market
 - Market size (USD Bn) (2015, 2017, 2023)
 - Drivers
 - Challenges

Chapter 6: U.S. Digital Gaming market segmentation – by genres

- 6.1. U.S. market share and size (USD Bn – 2017) – by genres (Shooter, Role- play Action, Sports, Strategy, Others)
- 6.2. U.S. shooter genre market
 - Market size (USD Bn) (2015, 2017, 2023)
 - Drivers
 - Challenges
- 6.3. U.S. role-playing action genre market
 - Market size (USD Bn) (2015, 2017, 2023)
 - Drivers
 - Challenges
- 6.4. U.S. sports genre market
 - Market size (USD Bn) (2015, 2017, 2023)
 - Drivers
 - Challenges
- 6.5. U.S. strategy genre market
 - Market size (USD Bn) (2015, 2017, 2023)
 - Drivers
 - Challenges
- 6.6. U.S. other genres market
 - Market size (USD Bn) (2015, 2017, 2023)
 - Drivers
 - Challenges

Chapter 7: U.S. Digital Gaming spend analysis

- 7.1. Paying players share by platform – 2017
- 7.2. PC games - Average spending and payers
- 7.3. Console games - Average spending and payers
- 7.4. Mobile games - Average spending and payers
- 7.5. Spend analysis

Chapter 8: Competitive landscape

- 8.1. Activision Blizzard
 - Company snapshot
 - Key numbers
 - Major game titles
 - Initiatives
 - Growth strategy
 - Major locations
- 8.2. Electronic Arts
 - Company snapshot
 - Key numbers
 - Major game titles
 - Initiatives

- Growth strategy
 - Major locations
- 8.3. Zynga
- Company snapshot
 - Key numbers
 - Major game titles
 - Initiatives
 - Growth strategy
 - Major locations
- 8.4. Take-two Interactive
- Company snapshot
 - Key numbers
 - Major game titles
 - Initiatives
 - Growth strategy
 - Major locations
- 8.5. Microsoft Corporation
- Company snapshot
 - Key numbers
 - Major game titles
 - Initiatives
 - Growth strategy
 - Major locations

Chapter 9: Market Share of Companies

- 9.1. U.S. Digital Games market - share of companies
- 9.2. U.S. PC Games market - share of companies
- 9.3. U.S. Mobile Games market - share of companies
- 9.4. U.S. Console Games market - share of companies

Chapter 10: Conclusion

Chapter 11: Appendix

- 11.1. List of tables
- 11.2. Research methodology
- 11.3. Assumptions
- 11.4. About Netscribes Inc.

Note: The Table of Contents (ToC) provided above contains the targeted coverage. The coverage is subject to change as we progress with the research

COMPANIES COVERED

- o Activision Blizzard
- o Electronic Arts
- o Zynga
- o Take Two Interactive
- o Microsoft Corporation

Chapter 1: Executive summary

Chapter 2: Socio-economic indicators

Chapter 3: Introduction

3.1. Ambulatory surgery market definition & structure

Chapter 4: Global ambulatory service market - overview

4.1. Ambulatory service market size & growth forecast

4.2. Ambulatory service market segmentation - Type-wise

- o Primary care offices
- o Outpatient departments
- o Others

Chapter 5: Indian ambulatory surgery market - overview

5.1. Ambulatory surgery market size & growth forecast

5.2. Day care delivery format

5.3. Healthcare segments appropriate for day care delivery format

Chapter 6: Key growth drivers of the market

Chapter 7: Key challenges of the market

Chapter 8: Competitive landscape

8.1. Dr. Agarwal's Eye Hospital Limited

- o Corporate information
- o Business description
- o Products & services
- o Key people
- o Financial snapshot (total income, net profit/loss)
- o Key ratios (public companies)
- o Business segments, geographic segments (public companies)

8.2. Fortis Healthcare Limited

- o Corporate information
- o Business description
- o Products & services
- o Key people
- o Financial snapshot (total income, net profit/loss)
- o Key ratios (public companies)
- o Business segments, geographic segments (public companies)

8.3. Apollo Health and Lifestyle Limited

- o Corporate information
- o Business description
- o Products & services
- o Key people
- o Financial snapshot (total income, net profit/loss)
- o Key ratios (public companies)
- o Business segments, geographic segments (public companies)

8.4. CARE Hospitals Private Limited

- o Corporate information
- o Business description
- o Products & services
- o Key people
- o Financial snapshot (total income, net profit/loss)
- o Key ratios (public companies)
- o Business segments, geographic segments (public companies)

8.5. Max Healthcare Institute Limited

- o Corporate information
- o Business description
- o Products & services
- o Key people
- o Financial snapshot (total income, net profit/loss)
- o Key ratios (public companies)
- o Business segments, geographic segments (public companies)

8.6. Sankara Nethralaya Private Limited

- o Corporate information
- o Business description
- o Products & services
- o Key people
- o Financial snapshot (total income, net profit/loss)
- o Key ratios (public companies)
- o Business segments, geographic segments (public companies)

8.7. Vasan Healthcare Private Limited

- o Corporate information
- o Business description
- o Products & services
- o Key people
- o Financial snapshot (total income, net profit/loss)
- o Key ratios (public companies)
- o Business segments, geographic segments (public companies)

8.8. Columbia Asia Hospitals Private Limited

- o Corporate information
- o Business description
- o Products & services
- o Key people
- o Financial snapshot (total income, net profit/loss)
- o Key ratios (public companies)
- o Business segments, geographic segments (public companies)

Chapter 9: Recent developments

Chapter 10: Appendix

Please note that due to the dynamic nature of the market, we believe in frequent updation to ensure that we provide the latest figures and relevant insights. Therefore, this table of contents is subject to change as the research progresses. The final report may require 4-5 working days post-confirmation in order to incorporate the most recent updates.

About NIIR

NIIR PROJECT CONSULTANCY SERVICES (NPCS) is a reliable name in the industrial world for offering integrated technical consultancy services. NPCS is manned by engineers, planners, specialists, financial experts, economic analysts and design specialists with extensive experience in the related industries.

Our various services are: Detailed Project Report, Business Plan for Manufacturing Plant, Start-up Ideas, Business Ideas for Entrepreneurs, Start up Business Opportunities, entrepreneurship projects, Successful Business Plan, Industry Trends, Market Research, Manufacturing Process, Machinery, Raw Materials, project report, Cost and Revenue, Pre-feasibility study for Profitable Manufacturing Business, Project Identification, Project Feasibility and Market Study, Identification of Profitable Industrial Project Opportunities, Business Opportunities, Investment Opportunities for Most Profitable Business in India, Manufacturing Business Ideas, Preparation of Project Profile, Pre-Investment and Pre-Feasibility Study, Market Research Study, Preparation of Techno-Economic Feasibility Report, Identification and Section of Plant, Process, Equipment, General Guidance, Startup Help, Technical and Commercial Counseling for setting up new industrial project and Most Profitable Small Scale Business.

NPCS also publishes various process technology, technical, reference, self employment and startup books, directory, business and industry database, bankable detailed project report, market research report on various industries, small scale industry and profit making business. Besides being used by manufacturers, industrialists and entrepreneurs, our publications are also used by professionals including project engineers, information services bureau, consultants and project consultancy firms as one of the input in their research.

NIIR PROJECT CONSULTANCY SERVICES , 106-E, Kamla Nagar, New Delhi-110007, India. **Email:** npcs.india@gmail.com **Website:** NIIR.org
