

# Modern Technology of Agro Processing & Agricultural Waste Products

**Author:** NIIR Board

**Format:** Paperback

**ISBN:** 8186623493

**Code:** NI11

**Pages:** 504

**Price:** Rs. 975.00 US\$ 100.00

**Publisher:** National Institute of Industrial Research

Usually ships within **5** days

Agriculture being a foundation stone for most budding economies, it would be benefiting to know about agro processing and waste management of agriculture produce. The book will act as an encyclopaedia for enriched information on the processing of a variety of products manufactured from agro crops and the waste management of agriculture products. Agro processing can be defined as set of techno economic activities carried out for preservation and treatment of agricultural produce and to make it useful as food, feed, fibre, fuel or manufacturing objects . Therefore, the span of the agro-processing industry covers all operations from the phase of harvest to the phase where the material reaches the end users in the desired form, packaging, quantity, quality and price. Agro processing is a complex process and a clear understanding will certainly help to grow your business. The agro processing is functional to all the produces, originating from agricultural farm, livestock, aqua cultural sources and forests for their preservation, treatment and value-addition to make them serviceable as food, feed, fibre, fuel or industrial raw materials.

The book deals with varied information on the agro product like Quality Parameters of Dehydrated Fruits and Vegetables, Fruit Specific Preservation Technologies, General Properties of Fruits and Vegetables; Chemical Composition and Nutritional Aspects; Structural Features. Some chapters provide information on the various by products of agro products like Alcohol from Potatoes, Activated Carbon from Saw Dust, Rice Husk and Coconut Shells, Cattle Feed from Molasses, Bio coal Briquettes from Agriculture Cellulosic Waste, Maize Processing for Glucose etc.

The book also gives a touch to the growth of agro processing Industries in India that has experienced expansion during last 5 decades, starting with a handful of facilities to the present level. The book in addition contains the number of products made from agricultural waste. With the current expansion and growth of agro processing and the waste management the book will render you comprehensive information on the project profiles, requirements of basic infrastructure like plant, machinery and raw materials and the addresses of their suppliers.

Agro processing has recently emerged as the dawn sector of the Indian economy with its enormous prospective for growth and direct assistance to economic aspect especially on employment and income generation. A number of estimates propose that in developed countries, up to 14 per cent of the total labour force is engaged in agro-processing sector directly or indirectly. Though, in India, a meagre number of 3 per cent of the work force finds employment in this sector revealing its underdeveloped state and vast untapped potential for employment. The book will provide you comprehensive information to tap the opportunities available in the sector.

## Contents

1. Quality Parameters of Dehydrated Fruits and Vegetables
  2. Shelf-Life of Maize-Soya Based Ready-to-Eat Extruded Snacks
  3. Growth of Agro Processing Industries in India
  4. General Properties of Fruits and Vegetables; Chemical Composition and Nutritional Aspects; Structural Features
  5. General Procedures for Fruit and Vegetable Preservation
  6. Packaging Materials
  7. Fruit Specific Preservation Technologies
  8. Castor Oil Derivative Oleo Resin
  9. Biocoal Briquettes from Agriculture Cellulosic Waste
  10. Modern Bee Keeping
  11. Fruit Pulp and Juice Concentrates Mango and Pineapple Pulp and Concentrates
  12. Garlic Oil and Powder
  13. Banana Wafers
  14. Dal / Pulse Mill
  15. Cattle Feed from Molasses
  16. Herbal Plantation (Medicinal)
  17. Mango Plantation
  18. Cardamom Oil
  19. Ginger Processing (Peeling Drying, Grinding Bleaching of Fresh Ginger)
  20. Red Chilli Powder
  21. Cashew Nut Shell Liquid and Kernels
  22. Coconut Processing Unit
  23. Activated Carbon from Saw Dust, Rice Husk and Coconut Shells
  24. Atta Chakki Plant
  25. Alcohol from Potatoes
  26. Fresh / Frozen Potato (Ready to Cook) Peled/Slices (Chips) Potato
  27. Maize Processing for Glucose
  28. Processing of Food Grains / Pulses and Retail Packaging
- Directory Section

## About NIIR

**NIIR PROJECT CONSULTANCY SERVICES (NPCS)** is a reliable name in the industrial world for offering integrated technical consultancy services. NPCS is manned by engineers, planners, specialists, financial experts, economic analysts and design specialists with extensive experience in the related industries.

Our various services are: Detailed Project Report, Business Plan for Manufacturing Plant, Start-up Ideas, Business Ideas for Entrepreneurs, Start up Business Opportunities, entrepreneurship projects, Successful Business Plan, Industry Trends, Market Research, Manufacturing Process, Machinery, Raw Materials, project report, Cost and Revenue, Pre-feasibility study for Profitable Manufacturing Business, Project Identification, Project Feasibility and Market Study, Identification of Profitable Industrial Project Opportunities, Business Opportunities, Investment Opportunities for Most Profitable Business in India, Manufacturing Business Ideas, Preparation of Project Profile, Pre-Investment and Pre-Feasibility Study, Market Research Study, Preparation of Techno-Economic Feasibility Report, Identification and Section of Plant, Process, Equipment, General Guidance, Startup Help, Technical and Commercial Counseling for setting up new industrial project and Most Profitable Small Scale Business.

NPCS also publishes various process technology, technical, reference, self employment and startup books, directory, business and industry database, bankable detailed project report, market research report on various industries, small scale industry and profit making business. Besides being used by manufacturers, industrialists and entrepreneurs, our publications are also used by professionals including project engineers, information services bureau, consultants and project consultancy firms as one of the input in their research.
