*****Limited Edition- available in Photostat Version Only*****

Agro based industry refers to an industry that adds values to agricultural raw materials through processing in order to produce marketable and usable products that bring forth profits and additional income to the producer. The development of the agro industry can help stabilize and make agriculture more lucrative and create employment opportunities both at the production and marketing stages. The broad based development of the agro products industry will improve both the social and physical infrastructure of India. India is one of the largest producers of food, and is the second largest producer of rice, wheat, fruits, and vegetables in the world. Nearly 70% of the population depends on agriculture and agro-based industries. Since it would cause diversification and commercialization of agriculture, it will thus enhance the incomes of farmers and create food surpluses. It is a well recognized fact across the world, particularly in the context of industrial development that the importance of agro industries is relative to agriculture increases as economies develop. It should be emphasized that food is not just produce. Food also encompasses a wide variety of processed products. It is in this sense that the agro-industry is an important and vital part of the manufacturing sector in developing countries and the means for building industrial capacities. The development of agro-based industries commenced during pre-independence days. Cotton mills, sugar mills, jute mills were fostered in the corporate sector. During the post-Independence days, with a view to rendering more employment and using local resources, small scale and village industries were favored.

It is the second-largest producer of food in the world and spends more than a quarter of its expenditure on food and related items. Agriculture services attracted foreign direct investment (FDI) worth US\$1440 million (INR 69,124.8 million). Indian food industry is estimated to grow from the present US\$181 billion (INR 8688 billion) to US\$318 billion (INR 15264 billion) by 2020. The food processing sector in India has potential of attracting US\$33 billion (INR1, 584 billion) of investments in 10 years and generates employment of 9 mn person days.

The content of the book includes information about rubber. The major contents of this book are project profiles of projects like Agro Based Industries, Aloe Vera Juice, gel & Powder, Banana Powder, Charcoal Powder from Rice Husk, Coconut Oil, Disposable Plates from Banana Leaves, Drumstick Powder, Dry Lemon, Lemon Powder and Lemon Oil, Extraction of Ultra Pure Silicon from Rice Husk, Fruit Processing Ginger Products, Maize and Its Products, Mango Pickles, Potato Powder and Flakes , Rice Bran Oil.

Project profile contains information like introduction, properties, uses, raw material, manufacturing process, process flow diagram, plant economics, land and building, fixed capital, working capital/month, total working capital/month, cost of project, turn over/annum, profit sales ratio, rate of return, breakeven point (B.E.P). This book is very useful for new entrepreneurs, technical institutions, existing units and technocrats.

Contents

1. Agro Based Industries
2. Aloe Vera Juice, Gel & Powder
3. Banana Powder
4. Charcoal Powder from Rice Husk
5. Coconut Oil
6. Disposable Plates from Banana Leaves
7. Drumstick Powder
8. Dry Lemon, Lemon Powder and Lemon Oil
9. Extraction of Ultra Pure Silicon from Rice Husk
10. Fruit Processing
11. Ginger Products
12. Maize and Its Products
13. Mango Pickles
14. Potato Powder and Flakes
15. Rice Bran Oil

About NIIR

NIIR PROJECT CONSULTANCY SERVICES (NPCS) is a reliable name in the industrial world for offering integrated technical consultancy services. NPCS is manned by engineers, planners, specialists, financial experts, economic analysts and design specialists with extensive experience in the related industries.

Our various services are: Detailed Project Report, Business Plan for Manufacturing Plant, Start-up Ideas, Business Ideas for Entrepreneurs, Start up Business Opportunities, entrepreneurship projects, Successful Business Plan, Industry Trends, Market Research, Manufacturing Process, Machinery, Raw Materials, project report, Cost and Revenue, Pre-feasibility study for Profitable Manufacturing Business, Project Identification, Project Feasibility and Market Study, Identification of Profitable Industrial Project Opportunities, Business Opportunities, Investment Opportunities for Most Profitable Business in India, Manufacturing Business Ideas, Preparation of Project Profile, Pre-Investment and Pre-Feasibility Study, Market Research Study, Preparation of Techno-Economic Feasibility Report, Identification and Section of Plant, Process, Equipment, General Guidance, Startup Help, Technical and Commercial Counseling for setting up new industrial project and Most Profitable Small Scale Business.

NPCS also publishes various process technology, technical, reference, self employment and startup books, directory, business and industry database, bankable detailed project report, market research report on various industries, small scale industry and profit making business. Besides being used by manufacturers, industrialists and entrepreneurs, our publications are also used by professionals including project engineers, information services bureau, consultants and project consultancy firms as one of the input in their research.

Our Detailed Project report aims at providing all the critical data required by any entrepreneur vying to venture into Project. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line.
