

The Complete Book on Coconut & Coconut Products (Cultivation and Processing)

Author: NIIR Board of Consultants & Engineers

Format: Paperback

ISBN: 8178330075

Code: NI178

Pages: 496

Price: Rs. 1,100.00 US\$ 29.73

Publisher: Asia Pacific Business Press Inc.

Usually ships within **5** days

Coconut is one of the oldest crops grown in India and presently covers 1.5 million hectares in this country. Found across much of the tropic and subtropical area, the coconut is known for its great versatility as seen in the many domestic, commercial, and industrial uses of its different parts. Coconuts are part of the daily diet of many people. Its endosperm is initially in its nuclear phase suspended within the coconut water. As development continues, cellular layers of endosperm deposit along the walls of the coconut, becoming the edible coconut flesh. When dried, the coconut flesh is called copra. The oil and milk derived from it are commonly used in cooking and frying; coconut oil is also widely used in soaps and cosmetics. The clear liquid coconut water within is a refreshing drink and can be processed to create alcohol. The husks and leaves can be used as material to make a variety of products for furnishing and decorating. It also has cultural and religious significance in many societies that use it. India stands third in the production of coconut in the world. There are only two distinguishable varieties of coconut; the tall and the dwarf. As a result of cross pollination in the tails, a wide range of variations occur within the same variety. Coconut based cropping/farming systems promote on farm diversity and strengthens ecological base of coconut farming. Coconut husk is the raw material for the coir industry. It is also used as a domestic fuel and as a fuel in copra kilns. Coconut oil comes under edible/industrial group, is used as cooking oil, hair oil, massage oil and industrial oil. It is dominated by saturated fats and high percentage of lauric acid. India accounts for the 18% of total coconut production in the world and it is the third largest coconut producing country in the world. Coconut processing adds value, and a number of products like coconut oil, desiccated coconut, coir fibre, pith, mattresses, desiccated coconut (DC), coconut cream, coconut milk, spray dried coconut milk powder, coconut shell products, shell charcoal, shell powder, virgin coconut oil are obtained. The demand for coconut oil increases 15 to 20 % during the festival season. Coconut oil for edible purposes is now being claimed to be the second best edible oil in the world, after Olive oil. Coconut shell charcoal is most widely used as domestic and industrial fuel.

Some of the fundamentals of the book are product diversification in coconut, future of coconut oil, scope for product diversification, varieties of coconut, farming systems in coconut, organic farming of coconut, spices and herbs, establishment and maintenance of organic coconut plantations, production of organic spices, medicinal and aromatic plants along with coconut, crop improvement, green manuring in coconut garden organic recycling in coconut, soil moisture conservation in coconut garden, harvest and post harvest technology, integrated farming in coconut holdings for productivity improvement, machinery and processing of desiccated coconut, coconut processing sector in India, etc.

Coconut plays an important role in the economic, social and cultural activities of millions of people in our country. India is a major producer of coconut in the world. Coconut provides food, edible oil, industrial oil and health drink to humanity. All parts of coconut tree is useful in one way or other and the crop profoundly influences the socio economic security of millions of farm families. The present book contains the methods of

cultivation and processing of coconut. This book is very beneficial for agriculturist, researchers, professionals, entrepreneurs, agriculture universities etc.

Contents

1. PRODUCT DIVERSIFICATION IN COCONUT

Future of Coconut Oil

Scope for Product Diversification

Philippines

Sri Lanka

India

Other Uses

Conclusion

2. VARIETIES OF COCONUT

Tall Variety

West Coast Tall

East Coast Tall

Lakshadweep Ordinary

Lakshadweep Micro

Andaman Ordinary

Andaman Giant

Kappadam

Laguna

San Ramon

Macapuno

Spicata

Performance of exotic cultivars under Indian conditions

Dwarf Variety

Ghowghat Green Dwarf

Chowghat Orange Dwarf

Malyan Dwarf

Gangabondam

Ayiramkachi

Thembili (King Coconut)

Coonino

Mangipod

Niuleka

3. FARMING SYSTEMS IN COCONUT

Rooting Pattern

Crown Structure And Light Transmission

Water Use Efficiency

Nutrients

Choice of Inter / Mixed Crops

Criteria For Selection Of Inter/

Mixed Crops

4. ORGANIC FARMING OF COCONUT, SPICES AND HERBS

Organic Coconut Scenario
Scope For Organic Production of Coconut In India
Characteristics of A Typical Organic
Coconut Farm
Establishment And Maintenance of Organic Coconut Plantations
Conversion Period
Buffer Zone
Choice of Varieties
Raising Nursery
Land Preparation
Preparations for Planting
Aftercare of the Young Plantation
Nutrient Management
Green Manuring and Cover Cropping
Utilization of Waste from Coconut Palm
Improving Soil Conditions
Plant Protection
Biopesticides
Contamination Control
Soil and Water Conservation
Bee Keeping
Animal Husbandry
Conversion of Established Plantations
Conversion Period
Choice of Cultivars/Varieties
Composting of On-farm Crop Residues/
Farm Wastes
Nutrition Management
Weed Management
Processing of Organic Coconut
Production of Organic Spices, Medicinal And Aromatic

Plants Along With
Coconut
Certification of Organic Products

5. PLANTING MATERIAL

Collection of Seednuts
Raising Nursery
Nursery Care
Seedling Selection
Polybag Nursery
Care of Polybag Nursery

6. GARDEN ESTABLISHMENT

Site Selection
Time of Planting
Planting System
Land Preparation And Preparation of Pits For Planting
Replacement of Unproductive Palms
Replanting

Under Planting
After Care

7. CROP IMPROVEMENT

Varieties

Tall Group

West Coast Tall

East Coast Tall

Lakshadweep Ordinary

Lakshadweep Micro

Andaman Ordinary

Kappadam

VPM-3

ALR (CN) 1

Dwarf Group

Dwarf Green

Dwarf Orange

Malayan Dwarf

Gangabondan

Choughat Orange Dwarf

Tall And Dwarf Hybrids

VHC 1

VHC 2

VHC 3

8. CROP PROTECTION

Insect Pests

Rhinoceros Beetle, *Oryctes rhinoceros* L.

Management

Red Palm Weevil, *Rhynchophorus ferrugineus* Oliv. (Curculionidae: Coleoptera)

Management

Black Headed Caterpillar, *Opisina arenosella* Meyr. (Cryptophasidae: Lepidoptera)

Management

Termite, *Odontotermes obesus* Ramb. (Termitidae: Isoptera)

Management

Lacewing Bug, *Stephanitis typicus* Dist. (Tingidae: Hemiptera)

Scale Insect, *Aspidiotus destructor* Sign. (Diaspididae: Hemiptera)

Management

Mealybug, *Pseudococcus longispinus* (T.),

P. citriculus G., *Palmicultor palmarum* (Eh.) (Pseudococcidae : Hemiptera)

Management

Slug Caterpillar, *Latoia lepida* Cram (Cochliidiidae: Lepidoptera)

Slug Caterpillar, *Contheyla rotunda* H.,

(Cochliidiidae: Lepidoptera)

Slug Caterpillar, *Macroleptra nararia* M.

(Cochliidiidae: Lepidoptera)

Management

White Leaf Roller, *Gangara thyrasis* M.

(Hesperiidae: Lepidoptera)

Green Leaf Roller, *Suastus gremius* F.

(Hesperiidae: Lepidoptera)

Long Green Caterpillar, *Turnaca acuta* W.
(Notodontidae: Lepidoptera)
Bag Worm, *Manatha albipes* M.
(Psychidae: Lepidoptera)
Management
Nut Borer, *Cyclodes omma* V.H.
(Noctuidae: Lepidoptera)
Lesser Coconut Spike Moth, *Batrachedra*
arenosella Wlk. (Cosmopterygidae: Lepidoptera)
Flower Caterpillar, *Syntomis passalis* Fab. (Cosmopterygidae: Lepidoptera)
Ash Weevil, *Myloccerus curvicornis* Fab.
(Curculionidae: Coleoptera)
Stem and Bark Weevil, *Diocalandra*
stigmaticollis G. (Curculionidae: Coleoptera)
Management
Shot Hole Borer, *Xyleborus perforans* W.
(Scolytidae: Coleoptera)
Management
Coreid Bug, *Paradasynus rostratus* Dist.
(Coreidae: Heteroptera)
Management
Root Grub, *Leucopholis coneophora* Burm. (Melolonthidae: Coleoptera)
Management
Ant, *Dorylus orientalis* W.

12. INTEGRATED FARMING IN COCONUT HOLDINGS FOR PRODUCTIVITY IMPROVEMENT

13. FINANCIAL ASSISTANCE TO PROCESSING INDUSTRIES

14. COCONUT HUSK

Coir
Coir Geotextile
Coir Pith

15. COCONUT OIL

Properties Of Coconut Oil
Extraction Of Coconut Oil
Coconut Oil Based Oleochemicals
Coconut oil based Oleochemicals:
Coconut Oil Cake

16. MACHINERY AND PROCESSING OF DESICCATED COCONUT

Abstract
Introduction
Desiccated Coconut
Processing Of Desiccated Coconut
Plant & Machinery For Desiccated
Coconut
Drying Of Desiccated Coconut
The Pilot Plant
Results And Observations
Scale-Up
Quality Of Desiccated Coconut
Conclusions

17. QUALITY STATUS OF DESICCATED COCONUT

Abstract
Introduction
Materials And Methods
Results And Discussion

18. COCONUT PROCESSING SECTOR IN INDIA

Trend In Area, Production And
Productivity
Coconut Industry Vs Indian Economy
Present Status Of The Coconut
Processing Sector
Traditional Coconut Products
And Technological Innovations
Copra
Sun drying
Kiln drying
Indirect hot air drier
Solar drying
Improvement in drying
Coconut Oil
Desiccated Coconut

Coir and Coir Products
Emerging Technologies In The
Processing Sector
Wet Processing of Coconut
Coconut Cream
Coconut Milk Based Consumer Products
Coconut Shell Based Products
Coconut Shell Charcoal
Activated Carbon
Methods of Processing
Destructive Distillation of Shells
Coconut Shell Powder
Miscellaneous Uses of Shells
Coconut Water
Coir Pith and Miscellaneous Products
Problems And Constraints
Future Strategy

19. VINEGAR FERMENTATION WITH SPECIAL EMPHASIS ON POSSIBILITIES OF UTILIZATION OF MATURED COCONUT WATER

Production And Volume
Raw Materials
Production Of Vinegar
Acetification Methods
The Orleans Process or Slow Process or
French Process
Quick Process or German Process
Submerged Method
Other Modern Processes
Coconut Water As Possible Substrate
For Vinegar Fermentation
Preparation of Coconut Water Medium
Pfa Specifications For Vinegar
Standards
Problems In Vinegar Manufacture
Ageing Of Vinegar

20. ACTIVATED CARBON FROM COCONUT SHELLS: SIGNIFICANCE AND PROSPECTS

Protection Against Toxic Gases
Air Purification And Recovery
Purification Of Various Gases
Filters For War Gases/ Nuclear
Fall-Outs
Purifying Working Environments
And Elimination Of Odours
Recovery Of Solvents And
Other Vapours
Typical Plants where Such Solvents are Recovered
Separation Of Hydrocarbon Mixtures
Purification Of Fermentation
Carbon Dioxide

Recovery Of Gold
Carbon Batteries
Miscellaneous Applications
Activated Carbon As Catalyst
And Catalyst Carriers
Impregnated Carbons
Activated Carbon In Pollution
Control
Conclusion

21. COMMERCIAL EXPLOITATION OF COCONUT PITH

Introduction
Coconut Pith
Utilisation Of Pith : Problems
Utilisation Of Pith : Prospects
Pith Fuel Briquettes Briquetting With Binders
Pith As An Ingredient In Agricultural/
Horticultural Farms
Pith As A Heat Insulating Material
Conclusion

22. MODERN SEMI AUTOMATIC COPRA MANUFACTURING UNIT USING WASTE HEAT RECOVERY SYSTEM

Introduction
Present Uses Of Coconut Shell In India
Charcoal Manufacture And Waste
Heat Recovery Unit
Chemical Analysis And Calorific Value
Whu And Pyrolysis Process
Modern Semi-Automatic Copra
Drying Unit
Economic Of A Modern Copra
Drying Unit
Inference

23. COCONUT KERNEL PRODUCTS

Virgin Coconut Oil
Desiccated Coconut
Coconut Milk
Spray Dried Coconut Milk Powder

24. FOOD PRODUCTS

The Wet Meat Or Kernel
Coconut Milk and Related Products
Coconut Skim Milk And Related
Products
Coconut Protein And Edible Oil
Krauss-Maffei/C.F.T.R.I. Process
Texas A & M University Process

The TPI Process
The Modified Solvol Process
Desiccated Coconut
Removal of the Kernels and Paring
Washing
Sterilising
Disintegrating and Desiccating
Edible Copra
Coconut Water
Foods uses of Coconut Water
Other Miscellaneous Uses
Toddy And Toddy Products
Tapping
The yield of Toddy
Suitability of Dwarf Palms
Tapping and Subsequent Yield of Nuts
Composition and Uses of Fresh Toddy
Jaggery
Refined Sugar
Treacle
Fermented Toddy
Arrack
Coconut Vinegar
Miscellaneous Products Of Food Value

25. COMMERCIAL PRODUCTS

Milling Copra
Preparation of Coconuts before Drying
Copra Drying Process and Methods
Sun Drying
Smoke Drying or Drying by Direct Heat in Kilns
Drying by Indirect Heat
The Quality of Copra
Oil Content of Copra
Storage of Copra
Deterioration of Copra
Grading of Copra
Moisture Determination

About NIIR

NIIR PROJECT CONSULTANCY SERVICES (NPCS) is a reliable name in the industrial world for offering integrated technical consultancy services. NPCS is manned by engineers, planners, specialists, financial experts, economic analysts and design specialists with extensive experience in the related industries.

Our various services are: Detailed Project Report, Business Plan for Manufacturing Plant, Start-up Ideas, Business Ideas for Entrepreneurs, Start up Business Opportunities, entrepreneurship projects, Successful Business Plan, Industry Trends, Market Research, Manufacturing Process, Machinery, Raw Materials, project report, Cost and Revenue, Pre-feasibility study for Profitable Manufacturing Business, Project Identification, Project Feasibility and Market Study, Identification of Profitable Industrial Project Opportunities, Business Opportunities, Investment Opportunities for Most Profitable Business in India, Manufacturing Business Ideas, Preparation of Project Profile, Pre-Investment and Pre-Feasibility Study, Market Research Study, Preparation of Techno-Economic Feasibility Report, Identification and Section of Plant, Process, Equipment, General Guidance, Startup Help, Technical and Commercial Counseling for setting up new industrial project and Most Profitable Small Scale Business.

NPCS also publishes varies process technology, technical, reference, self employment and startup books, directory, business and industry database,

bankable detailed project report, market research report on various industries, small scale industry and profit making business. Besides being used by manufacturers, industrialists and entrepreneurs, our publications are also used by professionals including project engineers, information services bureau, consultants and project consultancy firms as one of the input in their research.

Our Detailed Project report aims at providing all the critical data required by any entrepreneur vying to venture into Project. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line.
