

The Complete Technology Book on Candle Making & Designs

Author: NIIR Board of Consultants and Engineers

Format: Paperback

ISBN: 8186623663

Code: NI40

Pages: 354

Price: Rs. 650.00 US\$ 17.56

Publisher: National Institute of Industrial Research

Usually ships within 5 days

Candles have been used for luminosity and to light up man's celebrations for more than thousand years. The ancient Egyptians have been credited with the honour of developing the first candle, who used rush lights or torches made by soaking the pithy core of reeds in melted animal fat. However, the rush lights had no wick like a true candle. The development of candle to the present stage went through several stages.

Candle making today has taken a shape of small scale industry. It has got attention of a lot of people. From celebrities to designers all are trying their hand in this emerging industry. One pertinent reason is that the use of candle now has not been confined only for devotional purpose or some special occasion. They are now a part of every single moment is it special or routine. They add a touch of warmth in the occasion and that does why have become largely popular.

Creativity has added a new spark to the candle making industry. Candle making is a very flourishing industry in modern times owing to the versatile use of candles on various occasions and ceremonies. Candles are prepared by well established methods in multifarious fascinating colours, designs and shapes. The book is one of the best seller and has chapters on: Thermometer Weighing scales ,Measuring flask or jug ,Dipping can ,Bowl ,Iron, Hairdryer ,Pouring jug Materials ,Wicking needle ,Wick ,Wax , ,Dipping ,How to dipped candles Method ,More about dipping , Appliquéd candles ,Painting with wax ,Transfers ,Surface techniques Pressed flowers and grasses How to pressed flower candle Over dipping, etc.

This is one of its kind book which deals ostensibly with different candle making processes viz. Dipping, Pouring, Moulding or Casting and Drawing, delineating their technicalities in most illustrious manner with pictorial representations. The book will significantly add your knowledge if you are looking for comprehensive information on candle making industry to start their venture in said industry.

Contents

Introduction

Equipment and materials

Equipment

Heat source

Double boiler

Thermometer

Weighing scales

Measuring flask or jug

Dipping can

Bowl

Iron
Hairdryer
Pouring jug
Materials
Wicking needle
Wick
Wax
Additives
Wax glue
Mould seal
Dyes and perfumes
Creating colour
Using perfumes
Common sense with wax
Working with heat
Fire safety
Working with wax
Preventing accidents
Cleaning up
How to begin
Working with heat
Priming wicks
How to priming wicks
Method
Dipping
How to dipped candles
Method
More about dipping
Over dipping
How to over dipping (blue on white)
Method
Hand finishing
How to plaited candles
Method
How to twisted candles
Method
Rolling
How to flared spiral candles
Method
Beeswax sheet
How to tapered beeswax candles
Method
Hand modelling
Perfumed wax flowers
How to floating rose
Method
Wax fungi
How to fly agaric toadstool
Method
Common sense with candles
Fire Safety
Workshop Wisdom
Prevention

Cure
Dipped candles
Basic dipped candles
Overdipped candles
Spiral candles
Using templates
Floating candles
Beeswax sheets
Column candles
Spiral candles
Decorative candles
Sand candle
Stencilled candles
Surface texture
Appliqued candles
Painting with wax
Transfers
Surface techniques
Pressed flowers and grasses
How to pressed flower candle
Method
Applique
Inlays
How to bulls eye candle
Method
Carving
Method
Dip and iron back
Method
Hammering
Painting
Novelty candles
Whipped wax candles
How to ice cream cone
Method
Birthday cake candles
Balloon candles
How to balloon candle
Method
Sand candles
How to sand candle
Method
Water candles
How to water candles
Method Plunge
Method Pour
Ice candles
How to ice candle
Method
Burning down
Faults
Dipping
Casting in Moulds

Advanced Surface Techniques
 Dip and carve
 How to dip and carve candle
 Method
 Peeled Banana
 How to peeled Banana Candles
 Method Fruit
 Method skin
 Cutting corners
 How to basic techniques
 Method Dipping
 Method Cut and Curl Corners
 Method spirals
 Snakes
 Raw Materials
 The Fuel
 Paraffin Wax
 Stearine
 Micro Crystalline Wax
 Tallow
 Beeswax
 Vegetable Waxes
 The wick
 Candle Making Processes
 The Dipping Process
 Dipping
 Equipment Required
 The Pouring Process
 The Moulding or Casting Process
 Equipment Required
 Moulding
 The Candle Drawing Method
 Drawing
 Wax Melting
 Methods
 Heating Equipment
 Chemical Colours Used in Candles
 Candle Power
 Waxes used in Candles
 Selection of Good Quality Waxes
 Effect of Blending with Stearic Acid on m.pt
 Selected Formulations
 Foreign Type Candles
 Transparent Candles
 Procedure
 Milky Candles

About NIIR

NIIR PROJECT CONSULTANCY SERVICES (NPCS) is a reliable name in the industrial world for offering integrated technical consultancy services. NPCS is manned by engineers, planners, specialists, financial experts, economic analysts and design specialists with extensive experience in the related industries.

Our various services are: Detailed Project Report, Business Plan for Manufacturing Plant, Start-up Ideas, Business Ideas for Entrepreneurs, Start up Business Opportunities, entrepreneurship projects, Successful Business Plan, Industry Trends, Market Research, Manufacturing Process, Machinery, Raw Materials, project report, Cost and Revenue, Pre-feasibility study for Profitable Manufacturing Business, Project Identification, Project Feasibility and Market Study, Identification of Profitable Industrial Project Opportunities, Business Opportunities, Investment Opportunities for Most Profitable Business in India, Manufacturing Business Ideas, Preparation of Project Profile, Pre-Investment and Pre-Feasibility Study, Market Research Study, Preparation of Techno-Economic Feasibility Report, Identification and Section of Plant, Process, Equipment, General Guidance, Startup Help, Technical and Commercial Counseling for setting up new industrial project and Most Profitable Small Scale Business.

NPCS also publishes various process technology, technical, reference, self employment and startup books, directory, business and industry database, bankable detailed project report, market research report on various industries, small scale industry and profit making business. Besides being used by manufacturers, industrialists and entrepreneurs, our publications are also used by professionals including project engineers, information services bureau, consultants and project consultancy firms as one of the input in their research.

Our Detailed Project report aims at providing all the critical data required by any entrepreneur vying to venture into Project. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line.
