Usually ships within 5 days

Snacking is becoming a way of life with many people. In some countries the average eating frequency is around 6 to 7 occasions per day. There are plenty of marketing niches and slots to be filled in the Snack food areas. Snack is a type of food not normally eaten as a main meal such as breakfast, lunch or dinner but to mitigate hunger between these meals. Snack may also be consumed between meals purely for the enjoyment of its taste. Traditionally snacks were prepared from leftovers or ingredients easily available at home and included sandwiches, nuts, fruits etc. They have become more appealing than prepared foods and contain tempting, flavourful ingredients.

This book attempts to provide the processes for the manufacture of various Snack food items which has tremendous domestic and export market. It covers a variety of subjects from snack food emphasizing the evolving nature of snacks in our diet. Whether you are new to the field or you are pro facing broader responsibilities, Snack Food Processing provides valuable information gained through first-hand experience. It provides a clear, comprehensive overview of the Snack Food Processing which contains definitive content on developing, preparing, and processing various types of snack foods. The initial content is regarding snack food ingredients and the work progresses to discuss various types of snacks with processes in subsequent chapters, detailing their development, production and consumption, raw material requirement and flow chart. Detailed discussion on technical functions that includes product development followed by quality control and nutritional supplementation has also been included. Some chapter covers packaging, extrusion and other technologies of snack food manufacturing process. Special content on machinery equipment photographs along with supplier details has also been included.

It is for people who want a technical based practical review on how snack foods are made. We hope that this book will meet every individual need who has thrust to explore technology on snack food processing. New entrants into the field will be able to confidently communicate with suppliers and associates. Managers and quality control personnel will gain a better idea on where to start in solving problems when they arise.

Contents

PART – I SNACK FOOD INGREDIENTS

1. Popcorn and Other Cereal Products

Popcorn

Other Corn Ingredients

Wheat-based Ingredients

Rice

Rye

Sorghum

2. Fats, Oils, Emulsifiers and Antioxidants

Natural Fats and Oils

Processing Vegetable Oils

Analytical Tests Applied to Shortenings

Specifications and Quality Assurance

Frying Fats

Emulsifiers

Antioxidants

3. Sweeteners

Invert Syrups

Molasses

Brown Sugar

Other Sweeteners

4. Dairy Products

Fluid Milk Products

Concentrated Milk Products

Dried Milk Products

Cheese

5. Salt

Manufacture of Salt

Salt with Additives

Storage and Packing

Salt Requirements for Snacks

6. Water

Public Health Service Drinking Water Standards

Analyses of Water

Water Treatment

7. Nuts and Fruits

Nuts

Fruits

8. Vegetable Ingredients

Potatoes

Onions

Other Plant Products

9. Flavours and Colours

Flavours

Colours

PART – II PRODUCT AND PROCESSES

10. Potato Chips

Potato Chips Processing

Quality Factors

Storage Stability

11. Meat-based Snacks

Popped Pork Rinds

Pickled Snacks

12. Snacks-based on Popcorn

Factors affecting the quality of Popcorn

Popping Procedures

Caramel Corn and Other Popcorn Snacks

13. Puffed Snacks

Formulation and Procedures

Addition of Flavours and Colours

14. Corn Chips and Simulated Potato Chips

Corn Chips

Simulated Potato Chips

15. Baked Snacks

Salty-savory Baked Snacks

Sweet Baked Snacks

16. Nut-based Snacks

Peanuts

Other Nuts

Sugared and Spiced Nuts

PART – III EQUIPMENTS

17. Extruding Equipments

Extruder Function

Using Extruders to make Snacks

Extruder Design and Operation

Commercially Available Extruding Equipments

Complete Plants

Special Processes

18. Equipments for Frying, Baking and Drying

Heat Transfer Mechanism

Ovens

Electronic Ovens

Driers

Toasting Ovens

Frying

Specialized Snack Frying Equipment

19. Specialized Equipment for Popcorn Processing

Poppers

Sifters

Coaters

Caramel Corn Plants

20. Specialized Equipment for Potato Chip

Processing

Receiving and Cleaning Potatoes

Peelers

Slicers

Slice Washers and Conditioners

Fryers

Vacuum Finishing of Potato Chips

Microwave Drying

Addition of Salt and Seasonings

Sorting Potato Chips by Size
Protecting the Environment
21. Packaging Materials
Type of Containers
Special Feature for Some Snack Packages
Testing Films
Legal Considerations
22. Packaging Equipments
Folding Cartons
Preformed Pouches
Form-Fill Seal Equipment
Inner-lined Containers and Rotoseal Machines
Automatic Case Packaging for Flexible Bags
Milk Carton Types
Packaging Nut Meats
23. Miscellaneous Equipments
Nut Processing Equipment
Oil, Powder and Granule Applicators
Transfer and Storage Equipment
Weighing
PART – IV TECHNICAL FUNCTIONS
24. Product Development
Introduction
Mission and Objectives
Administration of Product Development
Systemalizing New Product Development
Conducting Development Work
Packaging Development
25. Quality Control
Quality Control or Quality Assurance
The Mission of Quality Control
The Extent of the Concern of Quality Control
The Position of Quality Control in the Organisation
Function of Quality Control Department
Promoting a Quality Conscious Attitude in other Departments
Keeping Records
Establishing Standards and Specifications
Sampling
Sanitation
Supervision of On-line Inspector
HACCP Studies
Recalls
Compliance
Utilization of Outside Laboratories
26. Nutritional Supplementation
Recommended Daily Allowances
Vitamins
Minerals
Proteins
Other Nutrients
27. Potato Chips And Tortilla Chips
28. French Fries
29. Papad And Namkin

- 30. Banana Chips
- 31. Extruded Puffed Snacks
- 32. High Energy Snack Food
- Machinery & Equipments

About NIIR

NIIR PROJECT CONSULTANCY SERVICES (NPCS) is a reliable name in the industrial world for offering integrated technical consultancy services. NPCS is manned by engineers, planners, specialists, financial experts, economic analysts and design specialists with extensive experience in the related industries.

Our various services are: Detailed Project Report, Business Plan for Manufacturing Plant, Start-up Ideas, Business Ideas for Entrepreneurs, Start up Business Opportunities, entrepreneurship projects, Successful Business Plan, Industry Trends, Market Research, Manufacturing Process, Machinery, Raw Materials, project report, Cost and Revenue, Pre-feasibility study for Profitable Manufacturing Business, Project Identification, Project Feasibility and Market Study, Identification of Profitable Industrial Project Opportunities, Business Opportunities, Investment Opportunities for Most Profitable Business in India, Manufacturing Business Ideas, Preparation of Project Profile, Pre-Investment and Pre-Feasibility Study, Market Research Study, Preparation of Techno-Economic Feasibility Report, Identification and Section of Plant, Process, Equipment, General Guidance, Startup Help, Technical and Commercial Counseling for setting up new industrial project and Most Profitable Small Scale Business.

NPCS also publishes various process technology, technical, reference, self employment and startup books, directory, business and industry database, bankable detailed project report, market research report on various industries, small scale industry and profit making business. Besides being used by manufacturers, industrialists and entrepreneurs, our publications are also used by professionals including project engineers, information services bureau, consultants and project consultancy firms as one of the input in their research.

Our Detailed Project report aims at providing all the critical data required by any entrepreneur vying to venture into Project. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line.
