Usually ships within **5** days

Snacking is becoming a way of life with many people. In some countries the average eating frequency is around 6 to 7 occasions per day. There are plenty of marketing niches and slots to be filled in the Snack food areas. Snack is a type of food not normally eaten as a main meal such as breakfast, lunch or dinner but to mitigate hunger between these meals. Snack may also be consumed between meals purely for the enjoyment of its taste. Traditionally snacks were prepared from leftovers or ingredients easily available at home and included sandwiches, nuts, fruits etc. They have become more appealing than prepared foods and contain tempting, flavourful ingredients.

This book attempts to provide the processes for the manufacture of various Snack food items which has tremendous domestic and export market. It covers a variety of subjects from snack food emphasizing the evolving nature of snacks in our diet. Whether you are new to the field or you are pro facing broader responsibilities, Snack Food Processing provides valuable information gained through first-hand experience. It provides a clear, comprehensive overview of the Snack Food Processing which contains definitive content on developing, preparing, and processing various types of snack foods. The initial content is regarding snack food ingredients and the work progresses to discuss various types of snacks with processes in subsequent chapters, detailing their development, production and consumption, raw material requirement and flow chart. Detailed discussion on technical functions that includes product development followed by quality control and nutritional supplementation has also been included. Some chapter covers packaging, extrusion and other technologies of snack food manufacturing process. Special content on machinery equipment photographs along with supplier details has also been included.

It is for people who want a technical based practical review on how snack foods are made. We hope that this book will meet every individual need who has thrust to explore technology on snack food processing. New entrants into the field will be able to confidently communicate with suppliers and associates. Managers and quality control personnel will gain a better idea on where to start in solving problems when they arise.

## Contents

### PART – I SNACK FOOD INGREDIENTS

#### 1. Popcorn and Other Cereal Products

##### Popcorn

Other Corn Ingredients  
Wheat-based Ingredients  
Rice  
Rye  
Sorghum  
2. Fats, Oils, Emulsifiers and Antioxidants  
Natural Fats and Oils  
Processing Vegetable Oils  
Analytical Tests Applied to Shortenings  
Specifications and Quality Assurance  
Frying Fats  
Emulsifiers  
Antioxidants  
3. Sweeteners  
Invert Syrups  
Molasses  
Brown Sugar  
Other Sweeteners  
4. Dairy Products  
Fluid Milk Products  
Concentrated Milk Products  
Dried Milk Products  
Cheese  
5. Salt  
Manufacture of Salt  
Salt with Additives  
Storage and Packing  
Salt Requirements for Snacks  
6. Water  
Public Health Service Drinking Water Standards  
Analyses of Water  
Water Treatment  
7. Nuts and Fruits  
Nuts  
Fruits  
8. Vegetable Ingredients  
Potatoes  
Onions  
Other Plant Products  
9. Flavours and Colours  
Flavours  
Colours

## PART – II PRODUCT AND PROCESSES

10. Potato Chips  
Potato Chips Processing  
Quality Factors  
Storage Stability  
11. Meat-based Snacks  
Popped Pork Rinds  
Pickled Snacks  
12. Snacks-based on Popcorn  
Factors affecting the quality of Popcorn

Popping Procedures  
Caramel Corn and Other Popcorn Snacks  
13. Puffed Snacks  
Formulation and Procedures  
Addition of Flavours and Colours  
14. Corn Chips and Simulated Potato Chips  
Corn Chips  
Simulated Potato Chips  
15. Baked Snacks  
Salty-savory Baked Snacks  
Sweet Baked Snacks  
16. Nut-based Snacks  
Peanuts  
Other Nuts  
Sugared and Spiced Nuts

#### PART – III EQUIPMENTS

17. Extruding Equipments  
Extruder Function  
Using Extruders to make Snacks  
Extruder Design and Operation  
Commercially Available Extruding Equipments  
Complete Plants  
Special Processes  
18. Equipments for Frying, Baking and Drying  
Heat Transfer Mechanism  
Ovens  
Electronic Ovens  
Driers  
Toasting Ovens  
Frying  
Specialized Snack Frying Equipment  
19. Specialized Equipment for Popcorn Processing  
Poppers  
Sifters  
Coaters  
Caramel Corn Plants  
20. Specialized Equipment for Potato Chip  
Processing  
Receiving and Cleaning Potatoes  
Peelers  
Slicers  
Slice Washers and Conditioners  
Fryers  
Vacuum Finishing of Potato Chips  
Microwave Drying  
Addition of Salt and Seasonings  
Sorting Potato Chips by Size  
Protecting the Environment  
21. Packaging Materials  
Type of Containers  
Special Feature for Some Snack Packages  
Testing Films

Legal Considerations

22. Packaging Equipments

Folding Cartons

Preformed Pouches

Form-Fill Seal Equipment

Inner-lined Containers and Rotoseal Machines

Automatic Case Packaging for Flexible Bags

Milk Carton Types

Packaging Nut Meats

23. Miscellaneous Equipments

Nut Processing Equipment

Oil, Powder and Granule Applicators

Transfer and Storage Equipment

Weighing

PART – IV TECHNICAL FUNCTIONS

24. Product Development

Introduction

Mission and Objectives

Administration of Product Development

Systemalizing New Product Development

Conducting Development Work

Packaging Development

25. Quality Control

Quality Control or Quality Assurance

The Mission of Quality Control

The Extent of the Concern of Quality Control

The Position of Quality Control in the Organisation

Function of Quality Control Department

Promoting a Quality Conscious Attitude in other Departments

Keeping Records

Establishing Standards and Specifications

Sampling

Sanitation

Supervision of On-line Inspector

HACCP Studies

Recalls

Compliance

Utilization of Outside Laboratories

26. Nutritional Supplementation

Recommended Daily Allowances

Vitamins

Minerals

Proteins

Other Nutrients

27. Potato Chips And Tortilla Chips

28. French Fries

29. Papad And Namkin

30. Banana Chips

31. Extruded Puffed Snacks

32. High Energy Snack Food

Machinery & Equipments

# About NIIR

**NIIR PROJECT CONSULTANCY SERVICES (NPCS)** is a reliable name in the industrial world for offering integrated technical consultancy services. NPCS is manned by engineers, planners, specialists, financial experts, economic analysts and design specialists with extensive experience in the related industries.

Our various services are: Detailed Project Report, Business Plan for Manufacturing Plant, Start-up Ideas, Business Ideas for Entrepreneurs, Start up Business Opportunities, entrepreneurship projects, Successful Business Plan, Industry Trends, Market Research, Manufacturing Process, Machinery, Raw Materials, project report, Cost and Revenue, Pre-feasibility study for Profitable Manufacturing Business, Project Identification, Project Feasibility and Market Study, Identification of Profitable Industrial Project Opportunities, Business Opportunities, Investment Opportunities for Most Profitable Business in India, Manufacturing Business Ideas, Preparation of Project Profile, Pre-Investment and Pre-Feasibility Study, Market Research Study, Preparation of Techno-Economic Feasibility Report, Identification and Section of Plant, Process, Equipment, General Guidance, Startup Help, Technical and Commercial Counseling for setting up new industrial project and Most Profitable Small Scale Business.

NPCS also publishes various process technology, technical, reference, self employment and startup books, directory, business and industry database, bankable detailed project report, market research report on various industries, small scale industry and profit making business. Besides being used by manufacturers, industrialists and entrepreneurs, our publications are also used by professionals including project engineers, information services bureau, consultants and project consultancy firms as one of the input in their research.

Our Detailed Project report aims at providing all the critical data required by any entrepreneur vying to venture into Project. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line.
